INDEX TO VOLUME 3, 1946

Subjects dealt with under various headings in the JOURNAL are set out both in the main Index and under their respective headings—for example 'Abstracts,' 'Book Reviews.' Names of authors of original articles are included in the Index. There is a separate Index to Abstracts. Names of authors of articles abstracted are separately listed. British and Foreign Official Publications and Abstracts are indicated by the letter (A); Original Articles by the letter (O); and Book Reviews by the letter (R).

For example:

<table>
<thead>
<tr>

<tr>
<td>No. 2</td>
<td>April</td>
<td>55–110</td>
</tr>
</tbody>
</table>

A
Acroparasthesia and so-called neuritis of the hands and arms in women, 260 (A)
Aerosol bomb, injury resulting from use of, 266 (A)
Aerosol burning, residues from such aerosols containing three percent.
DDT, toxicity and potential dangers of (U.S. Public Health Reports, 1943, 183), 194 (A)
Agate, John N. (and Druett, H. A.): A method for studying vibrations transmitted to the hands, 159 (O)
Ammonium derivatives, sulphaemoglobinaemia in British bronchiolitis, resulting in carbonic acid, and British carbonate anion, 104 (A)
Byssinosis, pneumoconiosis in the tobacco industry (Buckett, J. W.), 207 (A)
Bromide intoxication, observations on, 107 (A)
Buckell, John M. (and others): The incidence of siderosis in iron turners and grinders, 78 (O)
Buckell, John M. (and others): (and others): Chronic mercury poisoning, 55 (O)
Calcium necrosis of the skin (A. G. Hepplston), 253 (O)
Cancer of the scrotum in relation to occupation, 98 (R)
Carbon disulphide poisoning, alterations in the blood during chronic, 107 (A)
Carbon dust cloud of constant concentration, an apparatus for the maintenance of (H. A. Druett and T. Mcg. Sowrey), 187 (O)
--- monoxide, the effect of oxygen pressure on the uptake of, by man at sea-level and at altitude, 266 (A)
---, oxygen and haemoglobin in the blood of man at altitude, the relationships between, 266 (A)
--- poisoning from coal gas, the problem of, 269 (A)
--- tetrachloride, methionine in the therapy of liver injury from, 270 (A)
--- poisoning, methionine in, 107 (A)
---, theophylline toxicity in, 273 (A)
Carboxyhaemoglobin, on the altitude tolerance of man, the effect of low concentrations of, 266 (A)
Chlorinated diphenyl, pathological changes in animals exposed to, 108 (A)
Chromates in animal nutrition, 265 (A)
Chronic bronchitis, the astology, prevention, and treatment of (Nevile Southwell), 75 (O)
Chronic exudative and indurative pneumonia due to inhalation of shellac, 106 (A)
Chronic fatigue, 198 (A)
Compensation Law, problems arising from Michigan's new, 201 (A)
Craggs, J. D. (and Bradco, C. J.): Measurements of radioactivity in an industrial dial printing room, 15 (O)
Cresylic acid—containing solvent, toxicity of, 101 (A)

B
Bacela, 197 (A)
Bagasse, bronchiolitis, resulting from the handling of (Donald Hunter and Kenneth M. A. Perry), 64 (O)
Barnium carbonate poisoning, 272 (A)
Benzeno poisoning, 107 (A)
Beryllium poisoning, 105 (A)
British anti-lesiwite, 272 (A)
British Official Publications:
--- Aerosols, mists, and dusting powders, toxicity and potential dangers of, 99, 194
--- Dust and ventilation conditions in copper mines of Northern Rhodesia, 194
--- Molybdenum, toxicity of, 256
--- Occupational diseases control, 256
--- Rationing, an experimental study of, 257
--- TNT dermatitis, 99
--- TNP effect on workers in bomb and shell loading plant, 257
--- The President's National Labour Conference, 256
--- Zinc and Zinc compounds, Biological, Hygienic, and Medical properties of, 99
--- Bronchitis, pneumoconiosis in man due to cotton dust, 273 (A)

C
Cadmium poisoning, an outbreak of, 104 (A)
--- Calcium necrosis of the skin (A. G. Hepplston), 253 (O)
INDEX

P
Paranitraniline poisoning, acute, 108 (A)
Penicillin in tannous, 106 (A)
PERRY, KENNETH M. A. (and others): Chronic mercury poisoning, 20 (O)
---(and DONALD HUNTER): Bronchiolitis resulting from the handling of bagasse, 54 (O)
---(and others): the incidence of siderosis in iron turners and grinders, 78 (O)
Petrov vapour, acute poisoning due to, 101 (A)
Philippine Islands, industrial medicine in the, 204 (A)
Phosphorus burns, first-aid treatment of, 109 (A)
Physical capacity in work, 200 (A)
Physician's role in protecting the worker's health through control of the industrial environment, the, 107 (A)
Pipe-covering operations in constructing naval vessels, a health survey of, 199 (A)
Pneumoconiosis in radiator and boiler finishers, 195 (A)
Poisoning of firemen by irritant fumes (r. O. SHIELS and IAN ROKEMO), 213 (O)
Polycthyraemia produced by cobalt in the duck, 102 (A)
Positive pressure respiration in the treatment of irritant pulmonary oedema due to chlorine gas poisoning, 101 (A)
Psychiatric salvaging of industrial manpower in wartime, 261 (A)
Psychiatry in industry, 203 (A)
Psychology tests as an aid to the rehabilitation of hospital patients, an experiment on the use of (W. G. HIS and AUDREY RENNISON), 237 (O)
Psychosomatic consultations in industry, 110 (A)
--- medicine in industry, 203 (A)
R
Radiation hazard, detection of, 272 (A)
Radioactivity in an industrial dial printing room, measurement of (C. J. BRAUDE and J. D. CRAGGS), 15 (O)
Radiographs in the diagnosis of mouth infection, use and abuse of, 110 (A)
Railway, an experimental study of, 257 (A)
Raynaud's phenomenon in grains of small metal castings (J. N. AGATE, H. A. DRUETT, and J. B. L. TOMBLESON), 167 (O)
---(and others): the result of, 109 (A)
REEs, W. H. (and HENRY, F. S. H.): The transfer of heat through sun helmets, 225 (O)
Rehabilitation of the blind, 201 (A)
RENNISON, AUDREY (and Alice W. HEM): An experiment on the use of psychological tests as an aid to the rehabilitation of hospital patients, 237 (O)
Resentment of the disabled, 43 (A)
Restoring the industrially injured, 201 (A)
Resuscitation of severely wounded casualties, 258 (A)
Rheumatic diseases, the, 98 (R)
Rheumatic fever, occupational, 258 (A)
ROBERTSON, I, and SHIELS, D. O.: Poisoning of firemen by irritant fumes, cadmium and sulphurated castor oil, 213 (O)
---(and OTHERS): Roenologenics of the massive congluteration lesions of silicosis, 103 (A)
---(and others): the incidence of silicosis in iron turners and grinders, the, 109 (A)
---(and others): Silicois, 198 (A)
---(and others): Silicois, 198 (A)
---(and others): Silicois, 198 (A)
---(and others): Silicois, 198 (A)
---(and others): the incidence of, 199 (A)
---(and others): the aetiology of, 198 (A)
---(and others): observations on the development of, 263 (A)
---(and others): tin mining and, in Cornwall, 273 (A)
Silicotic blocks, the arterial lesions of, 265 (A)
Silicosis, 198 (A)
---(and others): the aetiology of, 198 (A)
Silicones in the fire-brick industry: I. Engineering study, 198 (A)
--- II. Roenologenics study, 198 (A)
Silicones, 198 (A)
---(and others): the aetiology of, 198 (A)
---(and others): tin mining and, in Cornwall, 273 (A)
Sodium tellurite, a report of three cases of accidental poisoning by (G. H. KEALL, N. H. MARTIN, and R. E. TUNBRIDGE), 175 (O)
Sore-finger tips in industry: protection by hydrogen peroxide, 108 (A)
SOUTHWELL, NEVILLE: The pathogenesis, prevention, and treatment of chronic bronchitis, 75 (O)
SOWERSY, J. MCC, and DRUETT, H. A.: maintenance of a carbon dust cloud of constant concentration, 187 (O)
---Stenographers, an outbreak of scabies in, 275 (A)
Stibine, the microdetermination of, 45 (A)
Streptomycin in experimental plague, 267 (A)
Sublёмophagosome from the blood of TNT workers, the disappearance of, in relation to the dynamics of red cell destruction (E. M. JONE), 136 (O)
SWANSON, CATHERINE N.: Health of forestry workers, I (O)
---Symposium of burns from the Hartford circus disaster: I. Management of civilian disaster burns 258 (A).
---III. The laboratory in the burn catastrophe 258 (A).
---IV. Bacteriostatics, 258 (A)
---Synthetic rubbers, on the toxicity of certain, 107 (A)
T
Tetryl (CE powder), clinical effects of (H. B. TROUP), 20 (O)
Tetragen, (Tetragan), sensitization to, 107 (A)
Text book of the practice of medicine, edited by FREDERICK W, PRICE, 194 (R)
THIELWALL, JONES, A.: Occupational dermatitis, 83 (O)
Thymol-barbitone test in clinical practice, the, 206 (A)
Tin mining and silicosis in Cornwall, 275 (A)
Trichloroethylene, poisoning by accidental drinking of, 108 (A)
TROUP, H. B.: Clinical effects of tetryl (CE powder), 20 (O)
---TNT absorption, monocytois as an index of (ALISON M. HAMILTON), 24 (O)
TOMBLESON, J. B. L. (and others): Raynaud's phenomenon in grinders of small metal castings, 167 (O)
Toxicology of the newer metals (LAWRENCE T. FAIRHALL), 207 (O)
---Transfer of heat through sun helmets (P. S. H. HENRY and W. H. REES), 225 (O)
Triethylene glycol with that of diethylen glycol, comparison of the chronic toxicity of, 264 (A)
Triszone anaesthesia, acute yellow necrosis of the liver following, 260 (O)
Trinitrotoluene metabolites of 2,4,6-trinitrotoluene excreted in the urine of dogs, 270 (A)
Tuberculosis in industry from the viewpoint of the physician in industry, 254 (A)
---(and others): accidental poisoning due to sodium tellurite, 175 (O)
U
Urinary lead determinations, evaluation of, I, 46 (A)
V
Vanadium pentoxide, some toxic effects of (H. WYERS), 177 (O)
Ventilation, natural, of heated "closed rooms," the, 265 (A)
---(and others): some methods of measuring the effects of exposure to, and radioactive substances, 274 (A)
---Vibrations transmitted to the hands, a method for studying (JOHN N. AGATE and H. A. DRUETT), 159 (O)
---Visual discomfort in eye-workers due to glasses, 202 (A)
W
Women on war work in four factories, study of, 43 (A)
---Workmen's compensation, what is wrong with, 103 (A)
---WYERS, H.: Some toxic effects of vanadium pentoxide, 177 (O)
---X rays and gamma rays, x-ray protection in industrial fluoroscopy, 273 (A)
---Zinc and zinc compounds, the biological hygiene and medica properties of, 99 (R)
---(and others): chloride smoke, casualties following exposure to, 262 (A)
INDEX TO ABSTRACTS

A

Acroplasthesia * and so-called 'neuritis' of the hands and arms in women, 260

Aerols and residues from such aerosols containing three per cent. present.

DDT, toxicity and potential dangers of, 194

Aerol bomb, injury resulting from use of, 266

Aluminium and alloys in the prophylaxis and treatment of silicosis, new data on the use of, 261

Ammonium picrate on man and certain experimental animals, studies of the effects of, 196

Aniline derivatives, sulphamoglobinemia due to, 260

dermatitis, allergic: an occupational accident, 269

Antimony trioxide, animal studies on the toxicity of inhaled, 196

Arsenic in the manufacture of arsphenamine and related compounds, occupational exposure to, 205

Arsenic in tobacco smoke determined by a rapid titrimetric method, the concentration of, 46

Arsenic poisoning of eyelids, development of a chemotherapy of systemic, 105

Artificial respiration, 272

Backache, 197

Barium carbonate poisoning, 272

Benzen poisoning, 107

Beryllium poisoning, 105

British anti-levatate, 272

Bromide intoxication, observations on, 107

Bynnosis, pneumoconiosis due to cotton dust, 273

C

Cadmium poisoning, an outbreak of, 104

Carbon disulphide poisoning, alterations in the blood during chronic, 107

--- monoxide, oxygen and haemoglobin in the blood of man at altitude, the relationships between, 266

--- poisoning from coal gas, the problem of, 269

--- the effect of oxygen pressure on the uptake of, by man at sea-level and at altitude, 266

Carbon tetrachloride, methionine in the therapy of liver injury from, 270

--- poisoning, methionine in, 107

Carboxyhaemoglobin on the altitude tolerance of man, the effects of low concentrations of, 266

Chlorinated hydrocarbons, pathological changes in animals exposed to a commercial, 108

Chronic lead poisoning in animals, 265

Chronic exudative and indurative pneumoconiosis due to inhalation of shellac, 106

--- fatiguer, 198

Compensation Law, problems arising from Michigan's new, 201

Cresylic acid-containing solvent, toxicity of, 101

D

DDT poisoning in a child, a fatal case of, 260

--- the acute toxicity of following intravenous injections in mammals, 267

--- the excretion of in man together with clinical observations, 267

--- the toxicity of 2,2-bis (p-chlorophenyl) 1,1,1-Trichloroethane, 101

--- toxic effects of in man, 259

Dust, pulmonary changes in workers using sandblasting tools, 102

Dermatitis, contact, an analysis or tabulation of all cases proved in a single year, 273

--- due to a case-hardening compound, 205

--- from cutting oils, 101

Dichloroethylene, toxicity of, 101

1,2-Dichloropropane (propylene dichloride), toxicity of: I. Studies on effects of daily inhalations, 205

Dichloromethanol comparison with triethylene glycol, 264

2,4-Dinitrotoluene poisoning, a case report, 264

Disabled Persons (Employment) Act, 1944, discussion on the clinical implications of, 196

Duration of disabling sickness, studies on the, Frequency of short term absences and its relation to total frequency, 104

Dust and ventilation conditions in the copper mines in Northern Rhodesia, with particular reference to silicosis, report on an investigation into, 194

Dust control in haematite mining: I. The effect of wet methods, 269

E

Electrical injuries, symposium on scientific proof and the relations of law and medicine, 273

F

Factories, Annual Report of Chief Inspector of, for the year 1944, 41

Fluorescent mineral dust as a tracer for the localization of particles in tissue, 46

Flouride poisoning, acute, 101

Fluorides in aluminium reduction plants, atmospheric concentrations of, 264

Flourine intoxication, experimental chronic, effects on bones and teeth, 206

--- to dental caries, relation of, 263

Fluorosis, endemic in Kweihow, China, 271

Furva reaction as a test for chlorinated hydrocarbons, observations on the, 196

G

Gasoline, drowning in, 104

Glass fibre, hygiene of workshops handling, 103

H

Haematite mining dust control in, 269

Health examination in industry, the value of, 107

Iron in welding flame samples, a method for the determination of, 264

Iron salts on the toxicity of lead, influence of, 267

Irritating vapours produced by burning cellulosic materials, 100

Keratosis associated with exposure to n-butyl alcohol (butanol), an unusual type of, 106

K

Keratitis associated with exposure to n-butyl alcohol (butanol), an unusual type of, 106

Lead determinations, evaluation of urinary, 270

--- excretion in the bile after intravenous injection, 258

--- intoxication by inhalation, 264

--- poisoning and haematoxylinuria, 262

--- due to absorption of lead from the skeleton by leukaemic hyperplasia of bone marrow, 263

--- hazard in can manufacturing, control of the: I. The bodymaking machine (sidewinder), 196

--- toxicity, influence of iron salts in, 267

L

Life tables for social classes in England, 267

Lumbar herniations of intervertebral discs—value of removal for naval personnel, 267

M

Manganese poisoning, experimental approach to the nervous symptoms of, 261

Mass miniature radiography of factory groups in Middlesex, 44

Medical care in the coal mining and steel industries of Nova Scotia, 260

--- of the industrial worker, 107

Mercury in biological material, microdetermination of, 206

--- poisoning in tungsten-molybdenum rod and wire manufacturing industry, 102

Methanol in air, sampling and determination of, 100

Methyl alcohol poisoning, 103

--- acute, 104

--- alkali treatment of, 103

--- clinical investigations of, with special reference to the pathogenesis and treatment of amibiodynia, 103

--- bromide intoxication, about 13 cases of: 7 with 2 deaths occurred in an accident, 106

--- poisoning: a new industrial hazard, 105

--- vapour, cases of exposure to, 104

--- chloride poisoning, eight cases of, with three deaths, 270

280
