Information section

Grateful acknowledgement is made to U.K. MEDLARS Centre and to the National Library of Medicine for their help with this project.

The references cited below have not been checked by the publisher.

1. Historical, legislative, and general

Use and misuse of disableness pension. (Norwegian) 
Linden, V. T. norske Laegeforen, 92, 1469-71, 20 Aug. 72.
[Disability Evaluation, Insurance, Pensions, Rehabilitation, English Abstract]

Occupational aspects of Raynaud’s disease: a critical historical survey. (English) 
[Bone Resorption Chemically Induced, Cold, Constriction, Fingers Blood Supply, Polyvinyls Adverse Effects, Raynaud’s Disease Etiology, Vibration, Historical Article]

Scrotal cancer continues. (English) 
[Human, Male, Coal, Scrotum and Urogenital Neoplasms History, Great Britain, Historical Article]

The problem of compensation. (English) 
Wall, J. Practitioner, 209, 311-9, Sep. 72.
[Expert Testimony, Insurance Liability, Malpractice, Neuroses, Post-traumatic]

The influence of industrial medicine on economic geography. (English)
[Economics, Geography, Gold, Mining, Petroleum, Historical Article]

2. Organization of medical and nursing services and education

Medical student education in environmental health. (English) 
[Accident Prevention, Curriculum, Education Medical, Environmental Health, Industrial Medicine Education, Occupational Health Services, Students Medical]

The question of ethical standards in occupational medical practice. (English) 
[Ethics Medical, Interprofessional Relations, Jurisprudence, Physician-patient Relationship, United States]

Statement to the President's Committee on Health Education. (English) 
[Health Education, Legislation Medical, Occupational Health Services, United States]

Professional secrecy and industrial medicine physicians (French) 
[Ethics Professional, Jurisprudence, Legislation Medical, Medical Records, France]

Health practices and their costs in large industry. (English) 
[Costs and Cost Analysis, Health, Legislation Medical, Occupational Health Services, Physical Examination]

Occupational health services. (English) 
[Industrial Medicine, State Medicine, Great Britain]

Value of technical personnel skilled in industrial medicine for the factory medical officer—thoughts on a new profession (German) 
[Physicians' Assistants, Germany, West]

Medical services at work. (English) 
[Industrial Medicine and Nursing, Occupational Health Services]

Selection of physicians for training in the health care of hospital staff in hospital occupational health services. (English) 
[Education Medical, Hospital Personnel, Occupational Health Services Manpower]

Assessment of findings from research project at Bedford General Hospital Occupational Health Service. (English) 
[Absenteism, Hospital Personnel, Occupational Health Services, Physical Examination]

3. Physiological, psychological, and organizational aspects of work and rehabilitation

The industrial medical officer as a controller? (Norwegian) 
[Absenteism, Malingering, Motivation, English Abstract]

An attempt to use the MMPI as a predictor of failure in military training. (English) 
[Human, Male, Absenteism, Adaptation, Psychologic,
Aptitude, False Positive Reactions, Malingering, MMPI, Psychiatry Military, Punishment

Rehabilitation, readjustment and resocialization of patient after injuries. (Slavonic)
[Human, Adaptation Psychologic, Interpersonal Relations, Wounds and Injuries Rehabilitation, English Abstract]

Commuter travel and sickness absence of London office workers. (English)
[Human, Absenteeism, Age Factors, Automobile Driving, Influenza, Insurance Health, Questionnaires, Sex Factors]

Ergonomics as some medical implications. (English)
[Human Engineering, Psychology Industrial]

Does power corrupt? (English)
[Human, Authoritarianism, Group Structure, Interpersonal Relations, Self Concept, Social Behaviour Dominance Perception]

Age limits for managers (German)
Zorn, H. Z. Allgemeinmed., 48, 777-8, 10 Jun. 72.
[Human, Age Factors, Leadership, Memory, Physical Fitness, Psychology Industrial, Retirement]

Job satisfaction and job-related health disturbances among air traffic controllers (German)
[Human, Age Factors, Occupational Diseases Etiology, Personal Satisfaction, Psychology Industrial, Questionnaires, Time Factors, English Abstract]

Angular measurements of foot motion for application to the design of foot-pedals. (English)
[Biomechanics, Foot Physiology, Human Engineering, Movement]

Effects of various seat surface inclinations on sitting posture and comfort. (German)
[Body Height, Posture, English Abstract]

Examinations of the relationship between types of shifts and the use of the day. (German)

4. Traumatic conditions, accidents, and accident prevention

The drowned men. (English)
[Human, Male, Mining, Accidents, Bone and Bones, Brain, Drowning, Forensic Dentistry and Medicine, Postmortem Changes, South Africa]

The Durban deep proto-team catastrophe—why did they die? (English)

[Activities of Daily Living, Circadian Rhythm, Noise, Occupations, Sleep, Socioeconomic Factors, Work, English Abstract]

Physical working capacity in severe chronic obstructive lung disease. (English)

Investigation of the relation between low back pain and occupation. 3. Physical requirements: sitting, standing and weight lifting. (English)

[Backache Etiology, Lumbosacral Region, Occupations, Posture, Stress Mechanical, Time Factors]

Monitoring disability absence in an employee group. (English)
[Absenteeism, Age Factors, Attitude to Health, Rehabilitation, Sex Factors, Telephone, Time Factors, Canada, United States]

Rehabilitation gain: a better indicator needed. (English)
[Efficiency, Employment, Rehabilitation, Vocational Standards, United States]

Medical certification for sick leave. (English)
[Absenteeism, Medical Records, Australia]

The elderly man at work—occupational medicine aspects (German)
[Human Efficiency, Aging, Occupations, Psychology Industrial, Social Environment, Work]

The personality of the back patient. (English)
[Human, Male, Middle Age, Absenteeism, Alcoholism, Backache, Educational Status, Family Characteristics, Income, Lumbosacral Region, Personality, Sick Role, Social Behaviour Disorder, Social Class]

5. Effects of inorganic substances and minerals

Phosphorus necrosis of the jaw: 'phossy jaw'. (English)
[Human, Jaw Diseases Chemically Induced, Necrosis, Phosphorus Poisoning, History of Medicine 19th Century, Great Britain]

Contact dermatitis XIX. (English)
[Human, Middle Age, Chromates, Construction Materials, Gentian Violet Therapeutic Use, Hexachlorophene Adverse]

Effects, Moniliasis Vulvovaginal Drug Therapy, Necrosis Chemically Induced, Skin Tests]

Lead-poisoning. (English)
Williams, M. K. Lancet, 2, 974, 4 Nov. 72.
[Human, Environmental Exposure, Time Factors]

Phagocytic activity of the alveolar epithelial cells in pulmonary asbestosis. (English)
[Animal Experiments Hamsters, Asbestosis Immunology,
Asbestosis Pathology, Epithelial Cells, Macrophages, Phagocytes, Pulmonary Alveoli Immunology

Urine osmolality and aminolevulinic acid excretion. (English)

[Human, Lead Urine, Leucovin Acid Urine, Models Theoretical, Osmolar Concentration]

Studies in environmental lead pollution. (English)

[Human, Lead Poisoning, Occupational Diseases, Water Supply, Scotland]

Pulmonary silicosis in building and public works workers. (French)

[Human, Silicosis Occurrence, Construction Materials, Protective Devices, France]

Pulmonary siderosis in electric welders: diffuse interstitial fibrosis and conglomerative form. (French)

[Human, Male, Middle Age, Respiratory Function Tests, Siderosis, Welding]

The potential toxic hazards in the dental laboratory. (English)
Autian, J. NADLJ., 19, 5, Passim, Sep. 72.

[Dental Materials Toxicity, Mercury Poisoning, Solvents Toxicity, Special List Dental]

Silicosis in hard rock mining. (English)

[Human, Dust, Maximum Permissible Exposure, Metals, Mining, Silicosis Complications, Diagnosis, Etiology, Occurrence, Prevention and Control]

A case of pulmonary fibrosis: possible role of tungsten dust. (French)

[Human, Tungsten, Cobalt Adverse Effects, Pneumoconiosis Complications, Pulmonary Fibrosis Chemically Induced, English Abstract]

Cytogenetic action of lead in human peripheral lymphocytes in vitro and in vivo. (German)

Chromosome analysis of policemen with increased blood lead level. (German)

[Human, Cells Cultured, Chromatids, Chromosome Aberrations, Erythrocytes Analysis, Lead Blood, Lymphocytes Cytology, English Abstract]

Lead poisoning. (English)

[Human, Child, Industrial Medicine, Lead Poisoning, Scotland]

Evidence of dose-response relation in pneumoconiosis. 1. (English)

[Human, Coal Mining, Dust, Time Factors]

Zinc-fume fever. (English)

[Human, Case Report, Diagnosis Differential, Lung Enzymology, Occupational Diseases Chemically Induced, Zinc Poisoning]

Perchloroethylene poisoning and pulmonary damage (Hebrew)
Einhorn, C. Ha'refuah, 82, 362, 16 Apr. 72.

[Human, Case Report, Antibiotics Therapeutic Use, Lung Diseases Chemically Induced, Tetrachloroethylene Poisoning, English Abstract]

Asbestos-fibre concentration in relation to the pulmonary reaction. (English)

[Human, Asbestos Pathology, Inflammation, Microscopy Electron and Phase Contrast]

Responses of alveolar macrophages to metals. I. Inhalation of lead and nickel. (English)

[Aerosols, Animal Experiments Rats, Dose-response Relationship, Lead Pharmacodynamics, Lymphocytes, Macrophages, Maximum Permissible Exposure, Nickel Pharmacodynamics, Cytology]

Lead poisoning and haem biosynthesis. (English)
Goldberg, A. Brit. J. Haemat., 23, 521-4, Nov. 72, 19.

[Aminolevulinic Acid Chemical Synthesis Metabolism, Anemia Hypochromic, Automobile Exhaust, Globin Biosynthesis, Heme Biosynthesis, Lead Metabolism, Mitochondria Metabolism, Review]

Chemical characterization of asbestos body cores by electron microscope analysis. (English)

[Human, Animal Experiments Hamsters, Asbestos Analysis, Electron Probe Microanalysis, Lung Analysis Cytology, Cytology, Mining]

Aspergillus poisoning, Hydrocyanic Acid Poisoning

Lead-poisoning. (English)
Bryce-Smith, D. Lancet, 2, 817-8, 14 Oct. 72.

[Human, Lead Poisoning Blood, Lead Poisoning Diagnosis, Methods, Psychometrics]

‘Itai-Itai Byo’ and other views on cadmium. (English)

[Animal Experiments, Body Temperature Drug Effects, Bone Diseases, Cadmium Poisoning, Carcinogens, Food Contamination, Glycosuria Renal, Hypertension, Kidney Diseases, Lead Poisoning, Smoking, Testicular Diseases, Water Pollution Chemical, Zinc Poisoning, Review, Japan]

Asbestos: identification of fibrilus particles in lungs. (English)

[Human, Asbestos Diagnosis, Environmental Exposure, Lung Analysis, Methods]

Transpulmonary artery distance in patients with coal workers' pneumoconiosis. (English)

[Anthropometry, Blood Pressure, Bronchitis Radiography, Coal Mining, Hypertension Pulmonary, Pneumoconiosis Complications, Pulmonary Artery Radiography, Pulmonary Fibrosis, Spirometry]

Chemical characterization of uncoated asbestos fibers from the lungs of asbestosis workers by electron microscope analysis. (English)

[Human, Asbestos Metabolism, Electron Probe Microanalysis, Lung Analysis, Mining, Statistics]
Clinico-radiographic manifestations of fluoride intoxication.  
(Russian)  
Fesenko, N. P., Brodskii, O. V., Volkova, V. M.  
[Bone and Bones, Electrolysis Adverse Effects, Fluoride Poisoning, Osteosclerosis Chemically Induced, English Abstract]

The so-called asbestos bodies (German)  
Gerlach, H.  
[Human, Asbestos Occurrence, Autopsy, Lung Pathology, Lung Neoplasms Complications, Pleural Neoplasms Complications, Sex Factors]

Pleural calcification in coal miners. (English)  
O'Brien, R. J.  
[Calcinosis Chemically Induced, Coal Mining, Time Factors, United States]

Pulmonary asbestosis bodies: contribution of Castaing's electronic microscope to knowledge of the gangue and to the identification of the asbestos nature of the central fiber. (French)  
Catalina, P., Champeix, J.  
[Human, Asbestos Analysis, Asbestos Diagnosis, Lung Analysis, Methods, Microscopy, Electron, Sputum Analysis]

Reticuloendothelial and hepatic functional alterations following lead acetate administration. (English)  
Trejo, R. A., Di Luzio, N. R., Loose, L. D.  

Toxicology of inhaled NiO and Co in Syrian golden hamsters. (English)  
Wehner, A. P., Craig, D. K.  
[Aerosols, Animal Experiments, Hamsters, Cobalt Toxicity, Gastrointestinal System Analysis, Kidney, Liver, Lung Particle Size, Pulmonary Alveoli Metabolism, Spectrophotometry Atomic, Time Factors]

Ultrastructural alterations of liver and spleen following acute lead administration in rats. (English)  
Hoffman, E. O., Trejo, R. A., Di Luzio, N. R.  
Exp. molec. Path., 17, 159-70, Oct. 72.  
[Animal Experiments, Rats, Cellular Inclusions, Cytoplasmic Granules, Endoplasmic Reticulum, Endotoxins, Kupffer Cells, Liver Glycogen, Liver Pathology, Lyso- somes, Macrophages, Microscopy, Electron, Mitochondria]

Mortality in relation to occupational exposure in the asbestosis industry. (English)  
Enterline, P., Decoufle, P., Henderson, V. J.  
[Asbestos Etiology Mortality, Dust, Employment, Environmental Exposure, Follow-up Studies, Smoking Complications, Time Factors, United States]

Some aspects of pneumoconiosis. (English)  
Gross, P.  
[Human, Animal Experiments, Guinea Pigs, Bronchitis Complications, Coal Mining, Dust, Inflammation Complications, Lung Physiology, Lymph Nodes, Macrophages, Metabolic Clearance Rate, Pneumoconiosis Classification, Pulmonary Embolism, Complications, Silicosis Pathology, Smoking, Tuberculosis Immunology]

Epidemiology of pleural asbestosis (German)  
[Asbestos Etiology, Chemical Industry, Epidemiologic Methods, Mass Chest X-ray, Pleural Diseases Etiology, Time Factors]

Application of sprayed inorganic fiber containing asbestos: occupational health hazards. (English)  
Reitz, W. J., Nicholson, W. J., Holaday, D. A.  
[Human, Air Pollution Prevention and Control, Asbestos Etiology, Construction Materials, Protective Clothing, New York City]

6. Effects of organic substances

Neuromuscular function in agricultural workers using pesticides. (English)  
Dreuth, H. J., Enserg, I. E., Roberts, D. V.  
[Cholinesterase Blood, Electromyography, Kidney Function Tests, Liver Function Tests, Neuromuscular Diseases, Pesticides Poisoning]

Scleroderma-like skin changes. Raynaud's syndrome and acroosteolyses in workers in the polyvinyl chloride producing industry. (German)  
Juhe, S., Lange, C. E.  
[Arm Blood Supply, Arteries Radiography, Bone Resorption Chemically Induced, Fingers, Polyvinyl Adverse Effects, Raynaud's Disease Chemically Induced, Sclero- derma Circumscribed Chemically Induced]

Decancerogenization of technical 1-naphthylamine—an important health measure in the aniline-dye industry. (Russian)  
Lipkin, I. L., Shabad, L. M.  
[Bladder Neoplasms, Carcinogens Isolation and Purification, Methods, Occupational Diseases Prevention and Control]

Search for abnormalities of heme synthesis and sympathoadrenal activity—in workers regularly exposed to pesticides. (English)  
Embry, T. L., Morgan, D. P., Roan, C. C.  

Effect of organochlorine insecticides on serum PBI level in occupationally exposed persons. (French)  
Wassermann, D., Wassermann, M.  
[Human, Environmental Exposure, Homeostasis, Hydrocarbons Halogenate Poisoning, Protein-bound Iodine Tests, Thyroid Gland Metabolism, Thyroxine Metabolism]

The medical surveillance of asbestos workers. (English)  
Lewinsohn, H. C.  
[Human, Asbestos Occurrence, Great Britain]

Contact allergy to a self-hardening acrylic sealer for assem- bling metal parts. (English)  
Mangusson, B., Mobacken, H.  
[Acrylic Resins, Allergens, Hand Dermatoses, Skin Tests]

Effect of pesticides on the skin of agricultural workers. (Russian)  
Mirakhmedov, U. M., Karimov, A. M.  
[Agricultural Workers, Benzene Hexachloride DDT, Dermatitis Contact Etiology, English Abstract]

Human and canine exposures to methylene chloride vapor. (English)  
Divincenzo, G. D., Yanno, F. J., Astill, B. D.  
8. Effects of physical agents

[Allergens, Bronchitis Etiology, Chronic Disease, Dust, Flavour, Respiratory Hypersensitivity Etiology, English Abstract]

Bronchopulmonary changes in workers exposed to dust (Dumonia Africana). (French)  
[Human, Bronchitis Radiography, Bronchitis Etiology, Byssinosis, Cellulose Adverse Effects, Cotton, Dust, Histamine Liberation]

Bronchial function in occupational exposure to plant dusts. (French)  
[Human, Age Factors, Bronchitis Physiopathology, Obstruction Physiopathology, Respiratory Function Tests, Respiratory Hypersensitivity, Skin Tests Smoking, Time Factors]

Bronchial function in occupational exposure to plant dusts. (French)  
[Human, Age Factors, Bronchitis Physiopathology, Obstruction Physiopathology, Respiratory Function Tests, Respiratory Hypersensitivity, Skin Tests Smoking, Time Factors]

Bronchial function in occupational exposure to plant dusts. (French)  
[Human, Age Factors, Bronchitis Physiopathology, Obstruction Physiopathology, Respiratory Function Tests, Respiratory Hypersensitivity, Skin Tests Smoking, Time Factors]

Bronchial function in occupational exposure to plant dusts. (French)  
[Human, Age Factors, Bronchitis Physiopathology, Obstruction Physiopathology, Respiratory Function Tests, Respiratory Hypersensitivity, Skin Tests Smoking, Time Factors]

Bronchial function in occupational exposure to plant dusts. (French)  
[Human, Age Factors, Bronchitis Physiopathology, Obstruction Physiopathology, Respiratory Function Tests, Respiratory Hypersensitivity, Skin Tests Smoking, Time Factors]

Bronchial function in occupational exposure to plant dusts. (French)  
[Human, Age Factors, Bronchitis Physiopathology, Obstruction Physiopathology, Respiratory Function Tests, Respiratory Hypersensitivity, Skin Tests Smoking, Time Factors]

Bronchial function in occupational exposure to plant dusts. (French)  
[Human, Age Factors, Bronchitis Physiopathology, Obstruction Physiopathology, Respiratory Function Tests, Respiratory Hypersensitivity, Skin Tests Smoking, Time Factors]

Bronchial function in occupational exposure to plant dusts. (French)  
[Human, Age Factors, Bronchitis Physiopathology, Obstruction Physiopathology, Respiratory Function Tests, Respiratory Hypersensitivity, Skin Tests Smoking, Time Factors]

Bronchial function in occupational exposure to plant dusts. (French)  
[Human, Age Factors, Bronchitis Physiopathology, Obstruction Physiopathology, Respiratory Function Tests, Respiratory Hypersensitivity, Skin Tests Smoking, Time Factors]

Bronchial function in occupational exposure to plant dusts. (French)  
[Human, Age Factors, Bronchitis Physiopathology, Obstruction Physiopathology, Respiratory Function Tests, Respiratory Hypersensitivity, Skin Tests Smoking, Time Factors]

Bronchial function in occupational exposure to plant dusts. (French)  
[Human, Age Factors, Bronchitis Physiopathology, Obstruction Physiopathology, Respiratory Function Tests, Respiratory Hypersensitivity, Skin Tests Smoking, Time Factors]

Bronchial function in occupational exposure to plant dusts. (French)  
[Human, Age Factors, Bronchitis Physiopathology, Obstruction Physiopathology, Respiratory Function Tests, Respiratory Hypersensitivity, Skin Tests Smoking, Time Factors]

Bronchial function in occupational exposure to plant dusts. (French)  
[Human, Age Factors, Bronchitis Physiopathology, Obstruction Physiopathology, Respiratory Function Tests, Respiratory Hypersensitivity, Skin Tests Smoking, Time Factors]
Thoracic Radiography, Vibration Adverse Effects, English Abstract

Are hearing tests necessary during continued work in a noisy environment? (German)
[Acoustic Trauma Diagnosis, Audiometry, Deafness Diagnosis, Disability Evaluation, English Abstract]

Writer’s cramp: a behavioural approach. (English)
[Aversive Therapy, Behavior Therapy, Muscle Cramp, Paralysis Etiology, Psychophysiology Disorders, Spasm, Tremor, Walking]

Involvement of platelets and microthrombi in experimental decompression sickness: similarities with disseminated intravascular coagulation. (English)
[Animal Experiments, Rabbits, Rats; Adenosine Phospho-nucleotide, Adenosine Diphosphate Pharmacodynamics, Air, Blood Cell Count, Blood Platelets Drug Effects, Cerebral Cortex Pathology, Decompression Sickness Complications, Disseminated Intravascular, Erythrocyte Aggregation Etiology, Platelet Adhesiveness]

The hazard to the dentist and his staff from dental radiology. (English)
[Human, Leukemia, Neoplasms, Radiation-induced, Life Expectancy, Maximum Permissible Exposure]

Blood specimen studies of workers who have been exposed to Ionizing radiation. (German)
[Human, Blood Cells, Blood Coagulation, Blood Platelets, Erythrocytes, Hemoglobin, Leukocyte Count, Radiation Effects]

Are hearing tests necessary during continued work in a noisy environment? (German)
[Human, Acoustic Trauma Diagnosis, Aging, Audiometry, Deafness Diagnosis, Disability Evaluation, Time Factors, English abstract]

Reduction of noise from rotating textile spindles. (English)
[Noise Prevention and Control, Textile Industry Instrumentation, Vibration]

Non-specific effect of industrial noise and vibration. (Russian)

Vibration disease in workers manufacturing glassware. (Russian)
[Human, Extremities, Peripheral Nerve Diseases Etiology, Vibration Adverse Effects, Ukraine, English Abstract]

Noise in industry. (English)
[Mining, Noise]

Noise in the operating room. (English)
[Human, Fatigue Etiology, Noise, Operating Rooms]

Hearing standards in miners. (English)
Dick, J. A. Lancet, 2, 1087-8, 18 Nov. 72.
[Human, Acoustic Trauma, Audiometry, Mining, England]

Morphologic shock equivalents in air embolism. Diving accidents and decompression sickness. (German)
[Human, Blood Coagulation, Diving, Embolism Air, Fat Pathology, Shock Traumatic Pathology, English Abstract]

Pneumoconiosis and caisson disease of bone. (English)
[Human, Bone Diseases Radiography, Decompression Sickness, Necrosis, Pneumoconiosis]

Welding hazards. (English)
[Human, Male, Adult, Environmental Exposure, Mining, Occupational Diseases Etiology, Welding, South Africa]

Medical aspects of supersonic travel. (English)
[Alpha Particles, Altitude, Heat, Noise, Protons, Radiation, Smoke, Weather]

The weavers of Dundee. (English)
[Human, Female, Aged, Deafness Etiology, Noise, Textile Industry]

Formula and fashion in the treatment of decompression sickness in divers (English)
Barnard, E. F. J. roy. nav. med. Serv., 58, 4-8, Spring 72.
[Human, Male, Decompression Sickness Therapy, Dextran Therapeutic Use, Respiration]

Report of the Whale Island hearing conservation programme for the gunnery branch of the Royal Navy. (English)
[Human, Male, Acoustic Trauma, Audiometry, Naval Medicine, Protective Devices]

Temporary threshold shifts from prolonged exposure to Noise. (English)
[Human, Animal Experiments, Acoustic Trauma Pathology, Auditory Threshold, Avoidance Learning, Cochlea Pathology, Conditioning Operant, Hearing Tests, Time Factors]

Interactions between gas bubbles and components of the blood: implications in decompression sickness. (English)

Implications for industry of the cancer risk. (English)
[Human, Maximum Permissible Exposure, Atomic Energy, Neoplasms Radiation-induced Prevention and Control; Radiation Protection]

Epidemiological study in a noisy department of a synthetic textile industry. (Italian)
[Human, Acoustic Trauma Occurrence, Audiometry, Deafness Etiology, Textile Industry, English Abstract]

The evaluation of cancer risks from radiation with special reference to leukaemia in adults. (English)
[Human, Bronchial Neoplasms Etiology, Leukemia Radiation-induced Occurrence, Radiotherapy Adverse Effects, Smoking Complications, Uranium]

Radiation exposure from industrial microwave applications. (English)
[Cooking and Eating Utensils, Food-processing Industry, Heating, Maximum Permissible Exposure, Microwaves, Quality Control, Radiation Monitoring]
Detection of gas bubbles in man at decompression. (English)

9. Methods of investigation of body function

Assays for porphyrins, delta-aminolevulinic-acid dehydratase, and porphyrinogen synthetase in microliter samples of whole blood: applications to metabolic defects involving the heme pathway. (English)

Utilization possibilities of impedance pneumography under clinical conditions—especially in occupational hygiene. I. Technical and biological parameters. (German)

Diagnostic cytology of urinary tract carcinoma. A review of experience with spontaneous and carcinogen induced tumors in man. (English)

Problems associated with setting safe levels for working with plutonium. (English)

Working in noise: in a program for the protection of hearing faculties. A judicious distribution of periods of nonexposure to noise is necessary. (French)

Evaluation of detergent enzymes in air. (English)

The role of the occupational physician in pollution control programs. (English)

Principles of the control of occupational disease. (English)

The renewed dialogue between science and labor. (English)

Portable instantaneous mass monitor for coal mine dust. (English)
11. Miscellaneous

State of the bronchi in pulmonary diseases related to organic dust inhalation. (French)
[Antigen-Antibody Reaction, Blood Gas Analysis, Bronchial Diseases, Bronchospimetry, Electrocardiography, Farmer's Lung, Pneumoconiosis, Pulmonary Alveoli, Radioisotope Scanning, Respiratory Hypersensitivity, Serodagnosis]

Morbidity and loss of work time in the construction industry. (Russian)
[Accidents, Industrial, Morbidity, Ukraine, English Abstract]

Air controllers syndrome. Peptic ulcer in air traffic controllers. (English)
[Human, Peptic Ulcer Occurrence, Psychophysiologic Disorders Occurrence, United States]

Pollution at work. A Dusty work in the '70s. (English)
[Asbestos Prevention and Control, Coal Mining, Dust, Dust Analysis, Legislation, Pneumoconiosis Prevention and Control, Respiratory Hypersensitivity, Great Britain]

A company-sponsored alcoholic rehabilitation program. Ten-year evaluation. (English)
[Accidents Industrial, Age Factors, Alcoholism Rehabilitation, Efficiency, Evaluation Studies, Family Characteristics, Statistics, Stress Psychological, Work]

The back X-ray controversy. (English)
[Back Injuries, Disability Evaluation, Sampling Studies, Spine Radiography, Time Factors]

Epidermomyositis among glassworkers. (Italian)
[Epidermophyton Isolation and Purification, Glass, Griseofulvin Therapeutic Use, Occupational Dermatitis Etiology, Tinea Etiology, Trichophyton Isolation and Purification, English Abstract]

Etiological and preventive aspects of human cancer. (English)
[Human, Alcoholism Complications, Carcinogens, Hormones Adverse Effects, Mortality Prevention and Control, Neoplasms Chemically Induced Radiation-induced, Nutrition Disorders Complications, Oncogenic Viruses, Smegma, Smoking, Tobacco, United States]
