NOTICE TO CONTRIBUTORS Occupational and Environmental Medicine is intended for the publication of original contributions relevant to occupational and environmental medicine, including toxicological studies of chemicals of industrial, agriculwright, and environmental importance, and epidemiological studies. As well as full papers, short papers dealing with brief or preliminary observations relevant to occupational and environmental medicine will also be considered. Case reports should cover substantial new ground to merit publication. Other articles, including review or position papers, will be considered but should not be submitted without first approaching the Editor to discuss their suitability for the Journal. Letters to the Editor are always welcome.

INSTRUCTIONS TO AUTHORS Three copies of all submissions should be sent to: The Editor, Occupational and Environmental Medicine, BMJ Publishing Group, BMA House, Tavistock Square, London WC1H 9JR, UK. All authors should sign the covering letter as evidence of consent to publication. Papers reporting results of studies on human subjects must be accompanied by a statement that the subjects gave written, informed consent and by evidence of approval from the appropriate ethics committee. These papers should conform to the principles outlined in the Declaration of Helsinki (BMJ 1964;ii:177).

If requested, authors shall produce the data on which the manuscript is based, for examination by the Editor.

Authors are asked to submit with their manuscript the names and addresses of three people who they consider would be suitable independent reviewers. They will not necessarily be approached to review the paper.

Papers are considered on the understanding that they are submitted solely to this Journal and do not duplicate material already published elsewhere. In cases of doubt, where part of the material has been published elsewhere, the published material should be included with the submitted manuscript to allow the Editor to assess the degree of overlap. The Editor cannot enter into correspondence about papers rejected as being unsuitable for publication, and the Editor's decision in these matters is final.

Papers should include a structured abstract of not more than 300 words, under headings of Objectives, Methods, Results, and Conclusions. Please include up to three keywords or key terms to assist with indexing.

Papers should follow the requirements of the International Committee of Medical Journal Editors (BMJ 1991;302:338-41). Papers and references must be typewritten in double spacing on one side of the paper only, with wide margins. SI units should be used.

Short reports (including case reports) should be not more than 1500 words and do not require an abstract. They should comprise sections of Introduction, Methods, Results, and Discussion with not more than one table or figure and up to 10 references. The format of case reports should be Introduction, Case report, and Discussion.

Illustrations Photographs and photomicrographs on glossy paper should be submitted unmounted. Charts and graphs should be carefully drawn in black ink on white paper. Legends to figures should be typed on a separate sheet of paper.

References References will not be checked by the editorial office; responsibility for the accuracy and completeness of references lies with the authors. Number references consecutively in the order in which they are first mentioned in the text. Identify references in texts, tables, and legends with Arabic numerals. References cited only in tables or in legends to figures should be numbered in accordance with a sequence established by the first identification in the text of a particular table or illustration. Include only references essential to the argument being developed in the paper or to the discussion of results, or to describe methods which are being used when the original description is too long for inclusion. Information from manuscripts not yet in press or personal communications should be cited in the text, not as formal references.

Authors should ensure that the number of references in line with the section of the book is not excessive. For example, a standard journal article: authors (list all authors when seven or fewer, when eight or more, list only six and add et al), title, abbreviated title of journal as given in Index Medicus (if not in Index Medicus give in full), year of publication, volume number, and first and last page numbers.

Proofs Contributors will receive one proof. Only minor corrections can be made at this stage; corrections other than printer's errors may be charged to the author.

Reprints Reprints will be charged for. The number of reprints required should be stated on the form provided with the proofs.

Copyright © 1994 Occupational and Environmental Medicine. This publication is copyright under the Berne Convention and the International Copyright Convention. All rights reserved. Apart from any relaxation permitted under national copyright laws, no part of this publication may be reproduced, stored in a retrieval system, or transmitted in any form or by any means without the prior permission of the owner. Permission is not, however, required to copy abstracts of papers or of articles on condition that a full reference to the source is shown. Multiple copying of the contents of this publication without permission is always illegal.

NOTICE TO ADVERTISERS Applications for advertisement space should be addressed to the Advertisement Manager, Occupational and Environmental Medicine, BMJ Publishing Group, BMA House, Tavistock Square, London WC1H 9JR.

NOTICE TO SUBSCRIBERS Occupational and Environmental Medicine is published monthly. The annual subscription rate (for 1994) is £129 (US $220). Orders should be sent to the Subscriptions Manager, Occupational and Environmental Medicine, BMJ Publishing Group, BMA House, Tavistock Square, London WC1H 9JR. Orders may also be placed with any bookseller who stocks this journal. (For the convenience of readers in the USA subscription orders with or without payment may also be sent to British Medical Journal, Box 560B, Kennebunkport, Maine 04046. All inquiries, however, must be addressed to the publisher in London.) All inquiries regarding air mail rates and single copies already published should be addressed to the publisher in London.

Subscribers may pay for their subscriptions by Access, Visa, or American Express by quoting their order the credit or charge card number with the appropriate personal account number and the expiry date of the card.

Second class postage paid Rahway NJ. Postmaster: send address changes to: Occupational and Environmental Medicine, c/o Mercury Airfreight International Ltd Inc, 2323 Randolph Avenue, Avenel, NJ 07001, USA.

FACULTY OF OCCUPATIONAL MEDICINE The Faculty of Occupational Medicine of the Royal College of Physicians of London is a registered charity founded to promote, for the public benefit, the advancement of knowledge in the field of occupational medicine. The Faculty has offices at 6 St Andrew's Place, Regent's Park, London NW1 4LB. ISSN 1351-0711.
Determinants of benzo(a)pyrenediol epoxide adducts to haemoglobin in workers exposed to polycyclic aromatic hydrocarbons

**Correspondence and editorials**

*Occupational and Environmental Medicine* welcomes correspondence relating to any of the material appearing in the journal. Results from preliminary or small scale studies may also be published in the correspondence column if this seems appropriate. Letters should be no more than 500 words in length and contain a minimum of references. Tables and figures should be kept to an absolute minimum. Letters are accepted on the understanding that they may be subject to editorial revision and shortening.

The journal also publishes editorials which are normally specially commissioned. The Editor welcomes suggestions regarding suitable topics; those wishing to submit an editorial, however, should do so only after discussion with the Editor.
Destruction of manuscripts

From 1 July 1985 articles submitted for publication will not be returned. Authors whose papers are rejected will be advised of the decision and the manuscripts will be kept under security for three months to deal with any inquiries and then destroyed.

Vancouver style

All manuscripts submitted to *Occup Environ Med* should conform to the uniform requirements for manuscripts submitted to biomedical journals (known as the Vancouver style.)

*Occup Environ Med*, together with many other international biomedical journals, has agreed to accept articles prepared in accordance with the Vancouver style. The style (described in full in the BMJ, 24 February 1979, p 532) is intended to standardise requirements for authors.

References should be numbered consecutively in the order in which they are first mentioned in the text by Arabic numerals above the line on each occasion the reference is cited (Manson confirmed other reports...). In future references to papers submitted to *Occup Environ Med* should include: the names of all authors if there are seven or less or, if there are more, the first six followed by et al; the title of journal articles or book chapters; the titles of journals abbreviated according to the style of *Index Medicus*; and the first and final page numbers of the article or chapter. Titles not in *Index Medicus* should be given in full.

Examples of common forms of references are:
