

# Occupational and Environmental Medicine

## Contents

### Commentary

- 163** Some clues for studying long-term health effects of oil spills  
*J P Zock*

### Original articles

#### Workplace

- 165** The Deepwater Horizon Oil Spill Coast Guard Cohort study  
*J Rusiecki, M Alexander, E G Schwartz, L Wang, L Weems, J Barret, K Christenbury, D Johndrow, R H Funk, L S Engel*
- 176** Surgery for subacromial impingement syndrome in relation to intensities of occupational mechanical exposures across 10-year exposure time windows  
*A Dalbøge, P Frost, J H Andersen, S W Svendsen*
- 183** Can favourable psychosocial working conditions in midlife moderate the risk of work exit for chronically ill workers? A 20-year follow-up of the Whitehall II study  
*M Fleischmann, E Carr, S A Stansfeld, B Xue, J Head*
- 191** Occupational exposure to asbestos and risk of cholangiocarcinoma: a population-based case-control study in four Nordic countries  
*A Farioli, K Straif, G Brandi, S Curti, K Kjaerheim, J I Martinsen, P Sparen, L Tryggvadottir, E Weiderpass, G Biasco, F S Violante, S Mattioli, E Pukkala*
- 199** Impact of considering non-occupational radiation exposure on the association between occupational dose and solid cancer among French nuclear workers  
*L Fournier, E Cléro, E Samson, S Caër-Lorho, D Laurier, K Leuraud*

## March 2018 Volume 75 Issue 3

- 205** Parental occupational exposures and the risk of childhood sporadic retinoblastoma: a report from the Children's Oncology Group  
*N Omidakhsh, G R Bunin, A Ganguly, B Ritz, N Kennedy, O S von Ehrenstein, N Krause, J E Heck*
- 212** Industrial hog farming is associated with altered circulating immunological markers  
*J N Hofmann, M S Shiels, M C Friesen, T J Kemp, A K Chaturvedi, C F Lynch, C G Parks, L A Pinto, A Hildesheim, M C R Alavanja, L E B Freeman*
- 218** Total workload and recovery in relation to worktime reduction: a randomised controlled intervention study with time-use data  
*H Schiller, M Lekander, K Rajaleid, C Hellgren, T Åkerstedt, P Barck-Holst, G Kecklund*
- 227** Poor health as a potential risk factor for job loss due to automation: the case of Norway  
*P Hessel, S Christiansen, V Skirbekk*
- 231** Shift work that involves circadian disruption and breast cancer: a first application of chronobiological theory and the consequent challenges  
*L Fritschi, J Valérie Groß, U Wild, J S Heyworth, D C Glass, T C Erren*
- 237** Questionnaire-based algorithm for assessing occupational noise exposure of construction workers  
*K Lewkowsky, K McCausland, J S Heyworth, I W Li, W Williams, L Fritschi*
