# Elastoplast

## Airstrip

**a waterproof, yet non-occlusive,  
adhesive first aid dressing that  
prevents maceration**

*The plastic material consists of a  
micro-porous extensible filter, air-permeable  
yet waterproof. Sweat and skin exudates  
evaporate freely through it.*

*The pad stretches with  
the plastic material.*

*Full details on application to:—*

**SMITH & NEPHEW LTD  
WELWYN GARDEN CITY · HERTS**

Elastoplast 'Airstrip' is a new type of first aid dressing. It is made from a specially developed plastic material, through which sweat and skin exudates evaporate at the same rate as they develop on the skin. The material is, in fact, a micro-porous extensible filter, and is not perforated. It provides a barrier to water, grease and infective organisms.

Even after long application, Elastoplast 'Airstrip' does not cause the underlying skin to macerate. The adhesive is specially spread in a lattice pattern so that micro-porosity is retained and firm adhesion not impaired. The surface of the wound and the surrounding skin remain dry beneath an 'Airstrip' dressing, which can be left on until the wound heals.

### FIRST AID OUTFIT

**P**ROPER SKIN CARE AND effective, specialised skin cleaners can almost certainly save far more time and money than you realise. Many widely used contaminants, such as epoxy resins, are not only potential irritants, but also waste productive time by building up on the hands and interfering with dexterity in precision work. It may pay you well to introduce scientific hand protection and effective hand cleansing into your plant with Kerodex barrier creams and Kerocleanse skin cleansers.

#### **KERODEX**

*barrier creams protect the hands against:*

MINERAL OILS · ACIDS  
ALKALIS · RESINS AND HARDENERS  
SOLVENTS  
AND BACTERIAL INFECTION

#### **KERODEX and KEROCLEANSE**

barrier creams and cleansers are anti-dermatitic, non-irritant and non-inflammable. They can be used *on the job* without contravening the factory acts. *Leading Industrial users include:* Bristol Aircraft Ltd., British Insulated Callender's Cables Ltd., The British Thomson-Houston Co. Ltd., A. C. Cossor Ltd., Greaves & Thomas Ltd., The De Havilland Engine Co. Ltd., Sperry Gyroscope Company Limited, Standard Telephones & Cables Limited, Vickers-Armstrongs (Aircraft) Ltd.

#### **KEROCLEANSE**

*cleansers are used on the job to remove:*

OILS AND GREASES  
RESINS AND HARDENERS  
ADHESIVES · PAINTS  
PRINTING AND HECTOGRAPH INKS

# EAR WAX

*Removed this easy way*

The removal of wax from the external auditory meatus has, in the past, normally entailed attendance by the patient for diagnosis and for the prescription of a suitable loosening agent, and a second attendance a few days later for syringing.

Now, by the use of Cerumol Ear Drops, wax can be removed in most cases at one visit. A few drops of Cerumol can be instilled into the ear and, while another patient is being attended to, the soft cerumen dissolves and the harder wax disimpacts. The wax can then be removed by gentle syringing or with cotton wool. The wax may

even be found to run out of the ear on its own accord, in which case patients themselves may instil Cerumol at home, obviating further attendances.

Cerumol is anti-bacterial, non-irritating and harmless to the lining of the external auditory meatus or the tympanic membrane.

Cerumol is included in Category No. 4 of the M.O.H. classified list and may be prescribed on N.H.S. Form E. C. 10.

Here is a real step forward in industrial welfare—now Dalmas introduce the *seal-wrapped* dressing, an individual waterproof or elastic dressing which is sealed in its own transparent envelope, ensuring absolute cleanliness and freshness, until the moment of application. A box of these dressings in your works clinic or treatment room have all these advantages . . . .

1. Keep absolutely hygienic prior to use
2. So easily handed out for self-application after initial treatment
3. Seal-wrapping so quickly removed
4. Eliminates deterioration of the dressing whilst in store

## Is the incidence of Dermatitis in Industry declining ?

No! In his Annual Report The Chief Inspector of Factories stated that the incidence of dermatitis in industry is not lessening.

Yet dermatitis can be controlled safely and simply by using Rozalex Barrier Creams. Applied before work, Rozalex is effective against almost every known industrial skin irritant and has been accepted as a standard barrier preparation by industry, hospitals, clinics and welfare workers for over 25 years. There is a Rozalex Barrier Cream available for every type of trade. Their full technical resources are at *your* disposal on request to Rozalex Limited, 10 Norfolk Street, Manchester 2.

the Country**

*Please write stating your requirements for  
quotation or ask our representative to call*

Above is an illustration of our new Mobile X-Ray Unit. The X-Ray apparatus is equipped with the latest 400 m.a. rotating anode tube, thereby ensuring full-size chest films of the highest quality.

*The Service includes:*

Chest examinations of workers on site.

Periodical visits at monthly or other intervals.

New entrants examined at frequent periods.

Nightshift workers X-rayed during working hours.

Annual survey of entire staff.

**PORTABLE X-RAYS LIMITED**

Power Road, Chiswick, London, W.4. Tel.: CHIswick 7836/7

## The problem... *loss of working hours*

Works medical officers faced with the problem of reducing the number of working hours lost by employees suffering from myalgia, dysmenorrhoea, and other such conditions associated with pain, will find that 'Sonalgin' is particularly well suited for use in industrial practice.

'Sonalgin' combines the sedative action of butobarbitone—a valuable drug for the relief of nervous tension—with the analgesic properties of codeine and phenacetin.

*Detailed literature available on request.*

MANUFACTURED BY **MAY & BAKER LTD**

DISTRIBUTORS: PHARMACEUTICAL SPECIALITIES (MAY & BAKER) LTD. • DAGENHAM

MA 1114

Supplies: Special economical bulk packing for industrial use of 500 tablets. Also available in containers of 12, 25 & 100 tablets (each containing butobarbitone gr. 1, codeine phosphate gr. 1, and phenacetin gr. 3½).

## WATERPROOF FIRST AID

Waterproof First Aid Dressings are intended for use when a wound is exposed to water, or contamination from oil, dirt, etc., and also where necessitated by hygienic requirements.

Illustrated is our most popular assortment of such dressings (Adaptopruf No. M207) consisting of 114 adhesive plasters of five different sizes. Each has a dressing pad of soothing, quick healing Euflavine, a most effective medicament equally for wounds and burns.

Whenever a waterproof plaster is not essential we recommend Adaptoplast First Aid Dressings be used.
