NOTICE TO CONTRIBUTORS

The *British Journal of Industrial Medicine* is intended for the publication of original contributions relevant to occupational medicine, including fundamental toxicological studies of industrial and agricultural chemicals. Short papers relating to particular experience in occupational medicine will be considered.

Notes and Miscellanea will deal with brief observations relevant to industrial medicine which do not warrant a full paper, such as individual case histories, preliminary reports or modifications to analytical methods. Extended book reviews may also be included.

All papers submitted for publication should be referred to The Editor, *British Journal of Industrial Medicine*, Department of Occupational Health, University of Manchester, Clinical Sciences Building, York Place, Manchester 13.

Papers are accepted on the understanding that they are contributed solely to this Journal, and that they are subject to editorial revision. Papers should be prefaced by an abstract of the argument and findings; this abstract should be more comprehensive than a summary, which will not be required. Papers must be typewritten on one side of the paper only, in double spacing, and with a wide margin. Photographs and photomicrographs should be printed on glossy paper and should be unmarked. Charts and graphs accompanying papers should be carefully drawn in black ink on tracing linen or Bristol board

or stout, smooth, white paper; any lettering should be lightly inserted in pencil.

References. In the text the year of publication in brackets must follow the author's name. At the end of the paper, references should be arranged in alphabetical order of authors' names. Such references should give the author's name, followed by initials and year of publication in brackets, the title of the article, the name of the journal in which the article appeared, the volume number in arabic numerals, followed by the numbers of the first and last pages of the article. Journals quoted in the references should be abbreviated according to *World Medical Periodicals* (3rd ed., 1961, W.M.A.). When a book is referred to, the place and year of publication, edition, and page number of the reference quoted should be given.

Contributors will receive one proof, but it is assumed that all but verbal corrections have been made in the original manuscript; an allowance at the rate of 10s. per sheet of 16 pages is made for alterations in the proof (printer's errors excepted), and contributors will be responsible for any excess.

Fifty free reprints of articles will be sent to contributors. A limited number of additional reprints at cost price can be supplied if application is made when returning proofs. An estimate of costs will be given on application to the Publishing Manager, British Medical Association.

NOTICE TO ADVERTISERS

Applications for advertisement space and for rates should be addressed to the Advertisement Manager, *British Journal of Industrial Medicine*, B.M.A. House, Tavistock Square, London, W.C.1.

NOTICE TO SUBSCRIBERS

From 1 January, 1969, the annual subscription rate will be £3 15s. in the United Kingdom and Republic of Ireland, and £4 4s. (U.S.A. \$10.00) in all countries overseas. Payment for overseas subscriptions should be made in sterling, *i.e.* £4 4s., and sent by Mail Transfer (Charges Remitter) through a Bank to the British Medical Association. Orders can also be placed locally through any leading subscription agent or bookseller. (For the convenience of readers in the U.S.A. subscription orders, with or without payment, can be sent to: BRITISH MEDICAL JOURNAL, 80 Brighton Avenue, Boston, Mass. 02134. All inquiries, however, must be addressed to the Publisher in London.)
