Hydroderm[®] simply treats 'skins'

'skins' allergic dermatoses (such as contact dermatitis), eczematoid dermatitis, atopic dermatitis (allergic eczema), infantile eczema, food eczema, neurodermatitis, pruritus with lichenification, seborrhoeic dermatitis, non-specific anogenital pruritus, miliaria, intertrigo, insect bites, acute actinic dermatitis, severe sunburn.

Many common skin conditions respond quickly to treatment with 'Hydroderm' Ointment.

'Hydroderm' contains hydrocortisone, with neomycin and bacitracin for broad antibacterial cover when susceptible infection is present or anticipated.

Supplied as a one-strength, one-base formulation for easy prescribing, 'Hydroderm' often provides the simple answer to many common skin conditions seen in general practice.

'Hydroderm' Ointment contains, in each gram, 10 mg hydrocortisone, 5 mg neomycin sulphate and 1,000 units zinc bacitracin, in tubes of 5 G and 15 G.

Detailed information is available to physicians on request.

New Silenta hearing protectors: when you hear the price, you won't believe your ears.

Without beating about the bush, 59/6 a set.
For hearing protectors that are highly efficient and selective (see chart) and which, at 6 ozs., are light in weight as well as in price.
Silenta hearing protectors concentrate their protective qualities at the top end of the decibel scale, where danger lies, yet let the human voice come through.
They're comfortable, washable and adjustable.
Remarkable, at the price.

Two models, with neck-band or head band.

Quantity	Price
1-23	59/6
24-99	59/6 less 5%
100-499	59/6 less 7½%

Orders value £15 and under charged 5/- extra.

MOBILE X-RAY EXAMINATIONS ON SITE

Time occupied 5 mins per man

FOR INDUSTRIAL DISEASES OF THE CHEST

An X-ray service of interest to every I.M.O. throughout Britain

PORTABLE X-RAYS LIMITED are regularly employed by many industrial organisations throughout the country for chest examinations of personnel on site. Apart from the enormous advantages of this method in cases of any industrial hazard, it is an easy and convenient way of making periodic checks on the chests of staff, for example, where large numbers work in close proximity with each other.

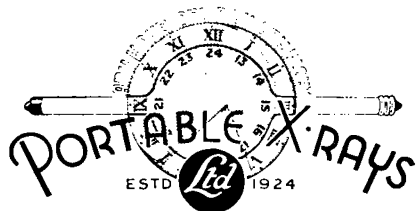

Night-shift workers can be examined during working hours.

All examinations are carried out on full size films.

SUBSCRIPTION RATES 1969

BRITISH JOURNAL OF INDUSTRIAL MEDICINE

The subscription rates to the BRITISH JOURNAL OF INDUSTRIAL MEDICINE, which have remained unaltered for 6 years (although production and distribution costs have increased considerably), were revised from 1 January, 1969 as follows:

United Kingdom & Irish Republic £3 15s.

Abroad (excluding U.S.A. and Canada) £4 4s.

(The single copy price will be increased to £1 2s. 6d.)

The subscription rates for U.S.A. (\$10.00) and Canada (\$11.00) remain unchanged.

Current subscriptions which extended into 1969 will not be affected by these increases until they become due for renewal.

OCCUPATIONAL HEALTH HAZARDS OF THE WORK ENVIRONMENT

By MAY R. MAYERS, formerly Assistant Director, Chief of Medical Unit and Editor of Publications, Division of Industrial Hygiene, New York State Department of Labor.

586 pages 24 illustrations £8

This timely work introduces the reader to the many varieties of health hazards encountered in industry, agriculture, aviation and laboratory work, as well as the current methods of prevention and control. "Air and water pollution, for example, and the widespread use of potentially toxic chemical agents in cosmetics, food additives, drugs, cleaning agents, and so forth are creating new problems in public health. The field of environmental health has thus come to the fore, since it encompasses every aspect of man's physical and psychological responses to his external environment—occupational and nonoccupational."—from the introduction.

The author emphasizes environmental physiology in relation to homeostasis, stressing the necessity of the early detection of histochemical changes and metabolic disturbances, while they are still reversible and before they become clinically observable symptoms. She demonstrates concern for the biological uniqueness of the individual—a fact often neglected before. Dr. Mayers also considers occupational disease diagnosis in relation to the medico-legal problems associated with workmen's compensation, as well as the need for research workers in the field.

Dr Mayers presents her material on several different levels so that this book is within the comprehension of interested people outside the medical profession. A complete bibliography is included to serve as a guide to further study in this emerging field.

WORLD MEDICAL PERIODICALS

(Reprint Third Edition 1961)

THIS IMPORTANT REFERENCE BOOK for authors, editors, librarians, medical schools, research laboratories, publishers, and booksellers has been reprinted in response to great demand. It gives details of over 5,800 journals of medicine, pharmacy, dentistry, and veterinary medicine which are listed alphabetically and indexed by subject and by country. Each entry gives the title in the original form. In addition, translations have been added to Japanese titles, and transliterations to Greek and Cyrillic titles (the latter in accordance with The Transliteration of Russian, Serbian, and Bulgarian for Bibliographical Purposes, issued by the Royal Society, London).

476 pages, Royal 8vo, cloth bound

Price 42s. (U.S.A. \$5.25), including postage

and its SUPPLEMENT

This Supplement brings the Third Edition of World Medical Periodicals fully up to date. It gives details of some 700 journals which have either first appeared or changed their title since 1961, the year of publication of the Third edition.

80 pages, Royal 8vo, cloth bound

Price 20s. (U.S.A. \$2.50), including postage
