paper workers from lung cancer and bronchitis 1952-66
and G. R. C. Atharoy 1

A proportional mortality study of a group of newspaper workers M. Greenberg 15

Adenocarcinoma of the nasal cavity and sinuses in England and Wales E. D. Acheson, R. H. Cowdell, and Elizabeth Rang 21

Relation between content and composition of coalworkers' lungs and radiological appearances C. E. Rossiter 31

Chronic bronchitis in ex-coal miners working in the steel industry C. R. Lowe and T. Khosla 45

Relationship of pulmonary impairment in simple coal workers' pneumoconiosis to type of radiographic opacity Anthony Sutton, N. LeRoy Lapp, and W. Keith C. Morgan 50

Details of blood changes in 32 patients with paraneoplasia associated with long-term exposure to benzene Mustafa Aksoy, Kerem Dinçol, Sakir Erdem, Turan Akgün, and Güncag Dinçol 56

Evaluation of exposure to benzene vapour during loading of petrol R. J. Sherwood 65

Quantitative relationship between atmospheric phenol vapour and phenol in the urine of workers in Bakelite factories Masuo Ohtsui and Masayuki Ikeda 70

Biliary excretion of ²⁰³Hg, ⁶⁴Cu, ⁶⁵Zn, and ²¹⁰Pb in the rat M. Cikri 74

Human exposure to natural uranium J. K. Donoghue, E. D. Dyson, J. S. Hislop, A. M. Leach, and N. L. Spoor 81

Relevancy of bivalent sulphur excretion to carbon disulphide exposure in different metabolic conditions L. Magos 90

Effect of phenobarbitone and starvation on hepatotoxicity in rats exposed to carbon disulphide vapour L. Magos and W. H. Butler 95

A comparative study of the excretion of Fujiwara reaction-positive substances in urine of humans and rodents given trichloro- or tetrachloro- derivatives of ethane and ethylene Masayuki Ikeda and Masuo Ohtsui 99

Notes and miscellanea

Two cases of occupational leucoderma following contact with hydroquinone monomethyl ether C. P. Chivers 105

Carbon pneumoconiosis in a synthetic graphite worker W. B. Lister and D. Wimborne 108
