

# Save man-hours!

**MOBILE X-RAY  
EXAMINATIONS  
ON SITE**

**Time occupied  
5 mins per man**

## For **INDUSTRIAL DISEASES OF THE CHEST**

**An X-ray service of interest to  
every I.M.O. throughout Britain**

PORTABLE X-RAYS LIMITED are regularly employed by many industrial organisations throughout the country for chest examinations of personnel on site. Apart from the enormous advantages of this method in cases of any industrial hazard, it is an easy and convenient way of making periodic checks on the chests of staff, for example, where large numbers work in close proximity with each other.

Night-shift workers can be examined during working hours.

All examinations are carried out on full size films.

Further details on request.

The Secretary,  
Postgraduate Course in Industrial  
Ophthalmology,  
Research Department,  
Birmingham & Midland Eye Hospital,  
Church Street,  
Birmingham B3 2NS,

from whom a detailed syllabus can be obtained.

# CHEST X-RAY SERVICES.

The emphasis of Chest X-Ray Services is on:

1. The highest quality full-size chest radiographs.
2. At times convenient to management and men, on site.
3. With modern equipment.
4. In spacious mobile vehicles or static units specially designed for industrial purposes (60-100 X-Rays per hour) and
5. Rapid provision of radiographs (and report if requested) to works doctor.

For further information, please write or telephone to:  
Medical Service,  
National Coal Board,  
Hobart House, Grosvenor Place,  
London SW1X 7AE  
Telephone 01-235 2020  
Extn. 254.

Operating from six bases in Great Britain the mobile and static units of X-Ray Services can offer a convenient system of chest X-Ray examination for new entrants, for special and for periodic surveys. For almost 20 years the Medical Service of the National Coal Board has been carrying out chest X-ray examinations of miners and other staff. In the last 10 years, well over 1 million radiographs have been taken. For geographical reasons, bases must be maintained throughout the country, but with the reduction in manpower there is now some spare capacity which can be made available to other industries.

## *Rapidly effective*

in the prevention and treatment of infection in minor injuries— and conspicuously active in the presence of blood, pus or tissue fluids

### **Brulidine** Cream

For the prevention and treatment of surface infection in burns, scalds, abrasions, cuts and other skin infections.

## From the BMJ

The problem facing the prescribing doctor today is choice. Catalogues of drugs—no matter how detailed—are of little help unless accompanied by advice on which drug to give for what condition.

# Today's Drugs/1

not only gives a full account of the drugs but also includes clear accounts of the management of common conditions such as urinary infections and epilepsy. It deals with only three subjects—infections, vitamin deficiencies and anaemias, and disorders of the nervous system

*Demy octavo    Paperback    213 pages*  
Price £1.00 (U.S.A. \$3.00) including postage

# Today's Drugs/2

deals with hormones and oral contraceptives, cardiovascular agents, and drugs acting on the gastrointestinal tract. As with the first volume the articles have been revised to bring them up to date.

*Demy octavo    Paperback    204 pages*  
Price £1.00 (U.S.A. \$3.00) including postage

*Copies of Today's Drugs (1/1 & 1/2) are available direct from:*

The Publisher, BRITISH MEDICAL JOURNAL  
BMA House, Tavistock Square, London WC1H 9JR  
*or through any leading bookseller*
