

Contents

Relationship between type of simple coalworkers' pneumoconiosis and lung function. A nine-year follow-up study of subjects with small rounded opacities A W MUSK, J E COTES, CAROL BEVAN, AND M J CAMPBELL *page* 313

Factors predisposing to the development of progressive massive fibrosis in coal miners D H SHENNAN, J S WASHINGTON, D J THOMAS, J A DICK, Y S KAPLAN, AND J G BENNETT *page* 321

Respiratory cancer in a cohort of nickel sinter plant workers A CHOVIL, R B SUTHERLAND, AND MABEL HALLIDAY *page* 327

Sensitisation against environmental antigens and respiratory symptoms in swine workers MARJA-L KATILA, R A MÄNTYJÄRVI, AND TARJA H OJANEN *page* 334

Ventilatory function in workers exposed to tea and wood dust Y S AL ZUHAIR, C J WHITAKER, AND F F CINKOTAI *page* 339

Acute behavioural effects of styrene exposure: a further analysis NICOLA CHERRY, B RODGERS, HELEN VENABLES, H A WALDRON, AND G G WELLS *page* 346

Some observations on workers exposed to methylene chloride NICOLA CHERRY, HELEN VENABLES, H A WALDRON, AND G G WELLS *page* 351

Occupational and individual factors in acute shoulder-neck disorders among industrial workers A BJELLE, M HAGBERG, AND G MICHAELSON *page* 356

Magnitude and distribution of trunk stresses in telecommunications engineers A S NICHOLSON, P R DAVIS, AND N J SHEPPARD *page* 364

Testicular function among epichlorohydrin workers T H MILBY, M D WHORTON, H A STUBBS, C E ROSS, R E JOYNER, AND L I LIPSHULTZ *page* 372

A study of the mortality of Cornish tin miners A J FOX, P GOLDBLATT, AND L J KINLEN *page* 378

Screening for occupational vitiligo in workers exposed to hydroquinone monomethyl ether and to paratertiary-*o*-amyl-phenol J J O'SULLIVAN AND C J STEVENSON *page* 381

Non-invasive magnetopneumographic determination of lung dust loads in steel arc welders A P FREEDMAN, S E ROBINSON, KATHLEEN O'LEARY, L GOODMAN, AND JEANNE M STELLMAN *page* 384

A technique to prepare asbestos air samples for light and electron microscopy T W S PANG AND ANN E ROBINSON *page* 389

Cotton bacterial endotoxin assessed by electron microscopy I HELANDER AND K LOUNATMAA *page* 394

Notes and miscellanea *page* 397

Information section *page* 398

Index to Volume *page* 401

Correction: Relation between progressive massive fibrosis, emphysema, and pulmonary dysfunction in coalworkers' pneumoconiosis (May 1981, p 125-9) *page* 333

Correction: Health of workmen in the chromate-producing industry in Britain (May 1981, p 117-24) *page* 333
