CORRECTIONS

In the article by Macdonald Critchley on "Effects of Climatic Extremes," in the issue of July, 1947, vol. 4, p. 166, column 1, the equation should have read:

\[(t_e + 460)^4 \times 10^{-9} = (t_a + 460)^4 \times 10^{-9} + 0.1028 \sqrt{v(t_e - t_a)}\]

In the second column of the same page the italic heading "Equivalent Warmth" should have read "Equivalent Temperature"; and in the same paragraph the word "eupathcoscope" should have been "eupatheoscope."
