APOLLO

*An anthology of poems by doctor poets
compiled and introduced by Edward Lowbury*

Poetry and medicine are not as far apart as you might think: the Greeks attributed both to one god, Apollo.

In *Apollo* poems by medical writers from classical times to the twentieth century have been chosen and edited with an introduction by Edward Lowbury, himself a distinguished doctor poet.

Including works by Rabelais, Sir Thomas Browne, Goldsmith, Keats, Schiller, Ronald Ross, William Carlos Williams, and Dannie Abse, this beautifully produced limited edition would make an ideal gift – or why not treat yourself?
