

*Now you can find the information
you really need...*

Evidence-Based Medicine

Editors: B Haynes & D Sackett

2 million new papers published
a year how can you be sure you
read all the papers essential for your
practice, and how can you be
sure of the scientific soundness of
what you do read? One answer to this
dilemma is practising evidence based
medicine, basing clinical decisions on
the best available scientific evidence.

To meet this need the BMJ Publishing
Group together with the American
College of Physicians is launching a
new journal - *Evidence - Based Medicine*.
This new journal is a development of
the ACP Journal Club.

The published bi-monthly *Evidence - Based
Medicine*, will survey a wide range of
international medical journals (at
least 70) to identify the key research
papers that are scientifically valid and
relevant to practice.

**Launching in September 1995,
Evidence-Based Medicine will:**

- use scientific criteria to select the abstracts from the most important papers from the world's leading journals
- select only those papers which have a direct message for practice
- provide commentaries on the abstracts which will make clear the importance of the papers
- supply educational material to teach you about evidence based medicine
- cover all medical advances that are really important
- cover internal medicine, and the major specialties, including general surgery, paediatrics, obstetrics & gynaecology, psychiatry, general practice, anaesthesiology and ophthalmology.
