The risk to the United Kingdom population of zinc cadmium sulfide dispersion by the Ministry of Defence during the “cold war”, 13
cancer, Cancer at sea: a case-control study among male Finnish petrochemical workers, 613
Cancer incidence and magnetic field exposure in industries using resistance welding in Sweden, 481
Sunlight and mortality from cancer, ovarian, colon, prostate, and non-melanoma skin cancer: a composite death certificate based case-control study, 257
Updated epidemiological study of workers at two California petrochemical refineries, 1950–95, 246
Carbon monoxide, nitrogen dioxide, Personal exposure monitoring of particulate matter, nitrogen dioxide, and carbon monoxide, 671
Carbon monoxide, Effects on health of prolonged exposure to low concentrations of carbon monoxide, 708
Cardiovascular disease, Associations between daily mortalities from respiratory and cardiovascular diseases and air pollution in Hong Kong, China, 30
Increase in interleukin-6 and fibrinogen after exposure to dust in tunnel construction workers, 57
Mortality from cardiovascular diseases and exposure to inorganic mercury, 484
The EMECAM project: a multicentre study on air pollution and mortality in Spain: combined results for particulates and for sulfur dioxide, 300
career, Long term medical conditions: career prospects, 851
carpal tunnel syndrome, Active epidemiological surveillance of musculoskeletal disorders in a shoe factory, 452
case-control studies, Myocardial infarction risk and occupational categories in Kaunas 25–64 year old men, 745
Occupational exposure assessment in case-control studies: opportunities for improvement, 575
Systemic sclerosis and occupational risk factors: a case–control study, 545
case-referent study, Methodological problems in a case-referent study based on a register of occupational asthma, 63
Methodological problems in a case-referent study based on a register of occupational asthma, 63
CCF, Different responses of Ross River virus to climate variability between coastline and inland cities in Queensland, Australia, 739
Cellulose, Respiratory symptoms and diseases among workers in the soft tissue producing industry, 830
Chemical disasters, Episodes of environmental poisoning worldwide, 855
Chemical incidents, Epidemiological assessment of health effects from chemical incidents, 55
Chemical industry, Episodes of environmental poisoning worldwide, 855
Children, Efluentes from a pulp and paper mill: a skin and health survey of children living in upstream and downstream villages, 373
Chinese medicine, Book reviews, 496
Chlorination, Distribution and determinants of trihalomethane concentrations in indoor swimming pools, 243
Chronic bronchitis, Non-malignant mortality among Norwegian silicon carbide smelter workers, 345
Chronic perinatal neuropathy, Clinical validation of methods of diagnosis of neuropathy in a field study of United Kingdom sheep dippers, 442
Climate, Different responses of Ross River virus to climate variability between coastline and inland cities in Queensland, Australia, 739
Cognitive, Influence of solvent exposure and aging on cognitive functioning: an 18 year follow up of formerly exposed floor layers and their controls, 49
cohort mortality study, Mortality and cancer morbidity of production workers in the UK flexible polyurethane foam industry: updated findings, 1988–98, 751
Cohort studies, Comparison of two different approaches for the anaesthesia data and a prospective cohort study: an application to work related risk factors for low back pain, 459
Mortality among Japanese construction workers in Mie Prefecture, 512
Smoking and mortality in 81 344 drivers in Guangzhou, China, 135
Updated epidemiological study of workers at two California petrochemical refineries, 1950–95, 246
Coke oven workers, Cross sectional study on lung function of coke oven workers: a lung function surveillance system from 1978 to 1990, 58
Cohort studies on lung function of coke oven workers: a lung function surveillance system from 1978 to 1990, 516
Colour vision, Relation between colour vision loss and occupational styrene exposure level, 824
Complementary medicine, Complementary and alternative medicine: what is it all about?, 140
Congenital anomaly, Hazard potential ranking of hazardous waste landfill sites and risk of congenital anomalies, 768
Congenital malformations, Review of recent epidemiological studies on paternal occupations and birth defects, 149
Connections, Long term medical conditions: career prospects, 851
Construction workers, Increase in interleukin-6 and fibrinogen after exposure to dust in tunnel construction workers, 9
Mortality among Japanese construction workers in Mie Prefecture, 512
Contact dermatitis, Prevention of work related skin problems: an intervention study in wet work employees, 556
Combinations and glues, Effectiveness of the hands-free technique in reducing operating theatre injuries, 703
Control strategies, Translating evidence about occupational conditions into strategies for prevention, 205
Coronary heart disease, When reciprocity fails: effort–reward imbalance in relation to coronary heart disease and health functioning within the Whitehall II study, 777
Corporate travel, Mental health insurance claims among spouses of frequent business travellers, 175
Cost, Cost-benefit and cost-effectiveness analysis of a disability prevention model for back pain management: a six year follow up study, 807
Cristobalite, Exposure to crystalline silica, silicosis, and lung disease other than cancer in diatomaceous earth industry workers: a quantitative risk assessment, 36
Pulmonary epithelial response in the rat lung to instilled Monsterrat respirable dusts and their major mineral components, 466
Cross sectional study, Cross sectional study on lung function of coke oven workers: a lung function surveillance system from 1978 to 1990, 816
Delivery, Influence of years engaged in agriculture and number of pregnancies and deliveries on mortality of inhabitants of the Callos River basin area in the 1960s, 109
Dental surgeon, Health and neuropsychological functioning of dentists exposed to mercury, 287
Dental technician, Respiratory morbidity in a population of French dental technicians, 398
Dentist, Mercury and dentists, 285
Depression, Mental ill health and fitness for work, 714
Dermatitis, The prevalence of occupational dermatitis in the UK printing industry, 487
Dermatology, Efluentes from a pulp and paper mill: a skin and health survey of children living in upstream and downstream villages, 373
Determinants, Personal exposure of Paris office workers to nitrogen dioxide and fine particles, 550
Diagnosis, Criteria for the diagnosis of peripheral neuropathies, 425
Diagnostic research, Detection of workers sensitised to high molecular weight allergens: a diagnostic study in laboratory animal workers, 189
Diarrhoea, Work related symptoms among sewage workers: a nationwide survey in Sweden, 562
Disocyanates, Changes in rates and severity of compensation claims for asthma due to disocyanates: a possible effect of medical surveillance measures, 58
Dioxins, Offspring sex ratios of people exposed to dioxin and dioxin-like compounds, 202
Disability, Fatigue as a predictor of work disability, 712
Inductive disability management by doctors is an obstacle for return-to-work: a cohort study on low back pain patients sicklisted for 3–4 months, 729
Risk factors for occupational knee related disability among women in the US Army, 601
Disaster planning, Episodes of environmental poisoning worldwide, 855
Disaster, Mind and matter: OEM and the World Trade Center, 145
Disinfectant byproducts, Distribution and determinants of trihalomethane concentrations in indoor swimming pools, 243
Diving, Lung function over six years among professional divers, 629
Doctors, Sickness absence in doctors, 201
Dose-response, Respiratory symptoms, lung function, and nasal cellulin in Indonesian wood workers: a dose-response analysis, 338
Dubai, Working to reduce work disability in rheumatoid arthritis, 566
Dust exposure, Increase in interleukin-6 and fibrinogen after exposure to dust in tunnel construction workers, 9
Nested case-control study of lung cancer in four Chinese tin mines, 113
Dust, Stomach cancer and occupation in Sweden: 1971–89, 329
Effluent, Efficient from a pulp and paper mill: a skin and health survey of children living in upstream and downstream villages, 373
Effort-reward imbalance, When reciprocity fails: effort–reward imbalance in relation to coronary heart disease and health functioning within the Whitehall II study, 777
Electrician, Suicide mortality among electricians, 649
Suicide mortality among electricians, 649
Electromagnetic field, Risk of birth defects by parental occupational exposure to 50 Hz electromagnetic fields: a population based study, 92
Suicide mortality among electricians in the Swedish construction industry, 195

Subject index

neurophysiology, A clinical neurological, neurophysiological, and neuropsychological study of sheep farmers and dippers exposed to organophosphate pesticides, 434
neurotoxicity, Mercury and dentists, 285
   Mercury and dentists, 285
   NHANES III, Prevalence and risk factors of work related asthma by industry among United States workers: data from the third national health and nutrition examination survey (1988–94), 505
nitrogen dioxide, Personal exposure of Paris office workers to nitrogen dioxide and fine particles, 550
noise, Occupational exposure to noise and the attributable burden of hearing difficulties in Great Britain, 634
   Translating evidence about occupational conditions into strategies for prevention, 205
   non-fatal AMI, Overtime work, insufficient sleep, and risk of non-fatal acute myocardial infarction in Japanese men, 447
   non-malignant respiratory disease, A cohort mortality and nested case-control study of French and Austrian tale workers, 98
   Mortality from non-malignant respiratory disease in the fibreglass manufacturing industry, 369
nursing stress, Self perceived work related stress and the relation with salivary IgA and lysozyme among emergency department nurses, 836
   occupation specific, Job stress, fatigue, and job dissatisfaction in Dutch lorry drivers: towards an occupation specific model of job demands and control, 356
   occupational accidents, Occupational accidents aboard merchant ships, 85
   occupational allergens, Detection of workers sensitised to high molecular weight allergens: a diagnostic study in laboratory animal workers, 189
   occupational asthma, Changes in rates and severity of compensation claims for asthma due to disocyanates: a possible effect of medical surveillance measures, 88
   Response to a case of occupational asthma due to the enzymes phytase and β-glucanase, 64
   occupational cancer, Cancer mortality among man-made graphite electrode manufacturing workers: results of a 38 year follow up, 473
   occupational cohort, An increased standardised mortality ratio for liver cancer among polyvinyl chloride workers in Taiwan, 405
   occupational disease, Fever and neutrophilic alveolitis caused by a vanadium based catalyst, 785
   occupational exposure, Cancer at sea: a case-control study among Finnish seafarers, 613
   Chronic neck and shoulder pain, age, and working conditions: longitudinal results from a large random sample in France, 537
   Occupational exposure assessment in case–control studies: opportunities for improvement, 575
   Polychlorinated dibenzo-p-dioxin and dibenzofuran concentrations in serum samples of workers at intermittently burning municipal waste incinerators in Japan, 362
   Relation between colour vision loss and occupational styrene exposure level, 824
   Reported chemical sensitivities in a health survey of United Kingdom dental technicians, 106
   Risk of back pain by parental occupational exposure to 50 Hz electromagnetic fields: a population based study, 92
   Translating evidence about occupational conditions into strategies for prevention, 205
   Validity of empirical models of exposure in asphalt paving, 620
   occupational hazards, Translating evidence about occupational conditions into strategies for prevention, 205
   occupational health service, Out of hours management of occupational exposures to blood and body fluids in healthcare staff, 415
   occupational health, Competency in occupational health, 647
   occupational injury, Risk factors for occupational knee related disability among enlisted women in the US Army, 601
   occupational risk factor, Systemic sclerosis and occupational risk factors: a case–control study, 543
   occupational vaccine, Clinical evaluation of smallpox vaccine for laboratory workers, 573
   occupation, Occupational risk of Lyme disease: an epidemiological review, 75
   Respiratory symptoms and diseases among workers in the soft tissue producing industry, 830
   Stomach cancer and occupation in Sweden: 1971–89, 329
   Suicide mortality among electricians in the Swedish construction industry, 199
   Working hours spent on repeated activities and prevalence of back pain, 680
   offspring sex ratio, Offspring sex ratios of people exposed to dioxin and dioxin-like compounds, 202
   operating theatre, Effectiveness of the hands-free technique in reducing operating theatre injuries, 703
   ordered probit analyses, Do mental disorders matter? A study of absenteeism among care seeking Gulf War veterans with ill defined conditions and musculoskeletal disorders, 532
   organic dust, Upper airway inflammation and respiratory symptoms in domestic waste collectors, 106
   organophosphates, A clinical neurological, neurophysiological, and neuropsychological study of sheep farmers and dippers exposed to organophosphate pesticides, 434
   painters, Nasal, eye, and skin irritation in dockyard painters, 64
   Pakistan, The prevalence of occupational dermatitis in the UK printing industry, 487
   parkinsonism, Translating evidence about occupational conditions into strategies for prevention, 205
