The risk to the United Kingdom population of zinc cadmium sulfide dispersion by the Ministry of Defence during the “cold war”. 13

cancer.
Cancer at sea: a case-control study among male Finnish fishermen, 613

Cancer incidence and magnetic field exposure in industries using resistance welding in Sweden, 481

Sunlight and mortality from fatal, ovarian, colon, prostate, and non-melanoma skin cancer; a composite death certificate based case-control study, 257

Updated epidemiological study of workers at two California petrochemical plants, 248

Carbon monoxide, nitrogen dioxide, Personal exposure monitoring of particulate matter, nitrogen dioxide, and carbon monoxide, 571

Carbon monoxide, Effects on health of prolonged exposure to low concentrations of carbon monoxide, 708

Cardiovascular disease, Associations between daily mortalities from respiratory and cardiovascular diseases and air pollution in Hong Kong, China, 30

Increase in interleukin-6 and fibrinogen after exposure to dust in tunnel construction workers, 9

Mortality from cardiovascular diseases and exposure to inorganic mercury, 494

The EMECAM project: a multicentre study on air pollution and mortality in Spain: combined results for particulates and for sulfur dioxide, 300

Career, Long term medical conditions: career prospects, 851

Carpal tunnel syndrome, Active epidemiological surveillance of musculoskeletal disorders in a shoe factory, 452

Case-control studies, Myocardial infarction risk and occupational categories in Kaunas 25–64 year old men, 745

Occupational exposure assessment in case-control studies: opportunities for improvement, 575

Systemic sclerosis and occupational risk factors: a case–control study, 545

Case-referent study, Methodological problems in a case-referent study based on a register of occupational asthma, 63

Methodological problems in a case-referent study based on a registry of occupational asthma, 63

CCF, Different responses of Ross River virus to climate variability between coastline and inland cities in Queensland, Australia, 739

Cellulose, Respiratory symptoms and diseases among workers in the soft tissue producing industry, 830

Chemical disasters, Episodes of environmental poisoning worldwide, 855

Chemical incidents, Epidemiological assessment of health effects from chemical incidents, 566

Chemical industry, Episodes of environmental poisoning worldwide, 855

Children, Effluents from a pulp and paper mill: a skin and health survey of children living in upstream and downstream villages, 373

Chinese medicine book reviews, 496

Chlorination, Distribution and determinants of trihalomethane concentrations in indoor swimming pools, 243

Chronic bronchitis, Non-malignant mortality among Norwegian silicaribe smelter workers, 345

Chronic peripheral neuropathy, Clinical validation of methods of diagnosis of neuropathy in a field study of United Kingdom sheep dippers, 442

Climate, Different responses of Ross River virus to climate variability between coastline and inland cities in Queensland, Australia, 739

Cognitive, Influence of solvent exposure and aging on cognitive functioning: an 18 year follow up of formerly exposed floor layers and their controls, 49

Cohort mortality study, Mortality and cancer morbidity of production workers in the UK flexible polyurethane foam industry: updated findings, 1987–98, 751

Cohort studies, Comparison of two different approaches for the analysis of inhalable dust: a prospective cohort study: an application to work related risk factors for low back pain, 459

Mortality among Japanese construction workers in Mie Prefecture, 512

Smoking and mortality in 81,344 drivers in Guangzhou, China, 135

Updated epidemiological study of workers at two California petrochemical plants, 1550–55, 248

Coke oven workers, Cross sectional study on lung function of coke oven workers: a lung function surveillance system from 1978 to 1990, 816

Colour vision, Relation between colour vision loss and occupational styrene exposure level, 824

Complementary medicine, Complementary and alternative medicine: what is it all about?, 140

Congenital anomaly, Hazard potential ranking of hazardous waste landfill sites and risk of congenital anomalies, 768

Congenital malformations, Review of recent epidemiological studies on paternaloccupational exposures and birth defects, 149

Connections, Long term medical conditions: career prospects, 851

Construction workers, Increase in interleukin-6 and fibrinogen after exposure to dust in tunnel construction workers, 9

Mortality among Japanese construction workers in Mie Prefecture, 512

Contact dermatitis, Prevention of work related skin problems: an intervention study in wet work employees, 556

Conaminations and glove technique, Effectiveness of the hands-free technique in reducing operating theatre injuries, 703

Control strategies, Translating evidence about occupational conditions into strategies for prevention, 205

Coronary heart disease, When reciprocity fails: effort–reward imbalance in relation to coronary heart disease and health functioning within the Whitehall II study, 777

Corporate travel, Mental health insurance claims among spouses of frequent business travellers, 175

Cost, Cost-benefit and cost-effectiveness analysis of a disability prevention model for back pain management: a six year follow up study, 807

Cristobalite, Exposure to crystalline silica, silicosis, and lung disease other than cancer in diamon adversely earth industry workers: a quantitative risk assessment, 36

Pulmonary epithelial response in the rat lung to instilled Montser-rat respirable dusts and their major mineral components, 466

Cross sectional study, Cross sectional study on lung function of coke oven workers: a lung function surveillance system from 1978 to 1990, 816

Delivery, Influence of years engaged in agriculture and number of pregnancies and deliveries on mortality of inhabitants of the Omi River basin area, 797

Dental surgeon, Health and neuropsychological functioning of dentists exposed to mercury, 287

Dental technician, Respiratory morbidity in a population of French dental technicians, 398

Dentist, Mercury and dentists, 285

Depression, Mental ill health and fitness for work, 714

dermatitis, The prevalence of occupational dermatitis in the UK printing industry, 487

dermatology, Effluents from a pulp and paper mill: a skin and health survey of children living in upstream and downstream villages, 373

determinants, Personal exposure of Paris office workers to nitrogen dioxide and fine particles, 550

diagnosis, Criteria for the diagnosis of peripheral neuropathies, 425

diagnostic research, Detection of workers sensitised to high molecular weight allergens: a diagnostic study in laboratory animal workers, 189

diarrhoea, Work related symptoms among sewage workers: a nationwide survey in Sweden, 562

disocyanates, Changes in rates and severity of compensation claims for asthma due to disocyanates: a possible effect of medical surveillance measures, 58

dioxins, Offspring sex ratios of people exposed to dioxin and dioxin-like compounds, 202

Disability, Fatigue as a predictor of work disability, 712

Infective disability management by doctors is an obstacle for return-to-work: a cohort study on low back pain patients sicklisted for 3–4 months, 729

Risk factors for occupational knee related disability among women in the US Army, 601

Disaster planning, Episodes of environmental poisoning worldwide, 855

Disaster, Mind and matter: OEM and the World Trade Center, 145

Disinfectant byproducts, Distribution and determinants of trihalomethane concentrations in indoor swimming pools, 243

Diving, Lung function over six years among professional divers, 629

Doctors, Sickness absence in doctors, 201

Dose-response, Respiratory symptoms, lung function, and nasal cellularity in Indonesian wood workers: a dose-response analysis, 338

Dubai, Working to reduce work disability in rheumatoid arthritis, 566

Dust exposure, Increase in interleukin-6 and fibrinogen after exposure to dust in tunnel construction workers, 9

Nested case-control study of lung cancer in four Chinese tin mines, 113

dust, Stomach cancer and occupation in Sweden: 1971–89, 329

Efluent, Effluents from a pulp and paper mill: a skin and health survey of children living in upstream and downstream villages, 373

Effort-reward imbalance, When reciprocity fails: effort–reward imbalance in relation to coronary heart disease and health functioning within the Whitehall II study, 777

Electrician, Suicide mortality among electricians, 649

Suicide mortality among electricians, 649

Electromagnetic field, Childhood and adult birth defects by parental occupational exposure to 50 Hz electromagnetic fields: a population based study, 92

Suicide mortality among electricians in the Swedish construction industry, 195

Subject index
neurophysiology, A clinical neurological, neurophysiological, and neuropsychological study of sheep farmers and dippers exposed to organophosphate pesticides, 434
neurotoxicity, Mercury and dentists, 285
Mercury and dentists, 285

Nurses, IHIS, Prevalence and risk factors of work related asthma by industry among United States workers: data from the third national health and nutrition examination survey (1988–94), 505

Nitrogen dioxide, Personal exposure of Paris office workers to nitrogen dioxide and fine particles, 550

Noise, Occupational exposure to noise and the attributable burden of hearing difficulties in Great Britain, 634

Translating evidence about occupational conditions into strategies for prevention, 205

Non-fatal AMI, Overtime work, insufficient sleep, and risk of non-fatal acute myocardial infarction in Japanese men, 447

Non-malignant respiratory disease, A cohort mortality and nested case-control study of French and Austrian talc workers, 98
Mortality from non-malignant respiratory disease in the fibreglass manufacturing industry, 369

Nursing stress, Self perceived work related stress and the relation with salivary IgA and lysozyme among emergency department nurses, 836

Occupation specific, Job stress, fatigue, and job dissatisfaction in Dutch lorry drivers: towards an occupation specific model of job demands and control, 356

Occupational accidents, Occupational accidents aboard merchant ships, 85

Occupational allergens, Detection of workers sensitised to high molecular weight allergens: a diagnostic study in laboratory animal workers, 189

Occupational asthma, Changes in rates and severity of compensation claims for asthma due to disocyanates: a possible effect of medical surveillance measures, 88
Response to a case of occupational asthma due to the enzymes phytase and β-glucanase, 64

Occupational cancer, Cancer mortality among man-made graphite electrode manufacturing workers: results of a 38 year follow up, 473

Occupational cohort, An increased standardised mortality ratio for liver cancer among polyvinyl chloride workers in Taiwan, 405

Occupational disease, Fever and neutrophilic alveolitis caused by occupational accidents, 550

Occupational exposure, Cancer at sea: a case-control study among Finnish seafarers, 613
Chronic neck and shoulder pain, age, and working conditions: longitudinal results from a large random sample in France, 537
Occupational exposure assessment in case–control studies: opportunities for improvement, 575
Polychlorinated dibenzo-p-dioxin and dibenzofuran concentrations in serum samples of workers at intermittently burning municipal waste incinerators in Japan, 362
Relation between colour vision loss and occupational styrene exposure level, 824
Reported chemical sensitivities in a health survey of United Kingdom don military personnel, 196
Risk of birth defects by parental occupational exposure to 50 Hz electromagnetic fields: a population based study, 92
Translating evidence about occupational conditions into strategies for prevention, 205
Validity of empirical models of exposure in asphalt paving, 620

Occupational health service, Out of hours management of occupational exposures to blood and body fluids in healthcare staff, 415

Occupational health, Competency in occupational health, 647

Occupational injury, Risk factors for occupational knee related disability among enlisted women in the US Army, 601

Occupational risk factor, Systemic sclerosis and occupational risk factors: a case–control study, 54

Occupational vaccine, Critical evaluation of smallpox vaccination for laboratory workers, 573

Occupation, Occupational risk of Lyme disease: an epidemiological review, 75
Respiratory symptoms and diseases among workers in the soft tissue producing industry, 830
Stomach cancer and occupation in Sweden: 1971–89, 329
Suicide mortality among electricals in the Swedish construction industry, 199
Working hours spent on repeated activities and prevalence of back pain, 680

Offspring sex ratio, Offspring sex ratios of people exposed to dioxin and dioxin-like compounds, 202

Operating theatre, Effectiveness of the hands-free technique in reducing operating theatre injuries, 703

Ordered probit analyses, Do mental disorders matter? A study of absenteeism among care seeking Gulf War veterans with ill defined conditions and musculoskeletal disorders, 532

Organic dust, Upper airway inflammation and respiratory symptoms in domestic dust collectors, 106

Organophosphates, A clinical neurological, neurophysiological, and neuropsychological study of sheep farmers and dippers exposed to organophosphate pesticides, 434

Painters, Nasal, eye, and skin irritation in dockyard painters, 64

Pakistan, The prevalence of occupational dermatitis in the UK garment industry, 487

Parkinsonism, Translating evidence about occupational conditions into strategies for prevention, 205

Particles, The EMECAM project: a multicentre study on air pollution and mortality in Spain: combined results for particulates and for sulfur dioxide, 300

Passive smoking, Passive smoking and its impact on employers and employees in Hong Kong, 842

Paternal occupational exposure, Review of recent epidemiological studies on paternal occupations and birth defects, 149

Poisoning, Episodes of environmental poisoning worldwide, 855

Poison regression, Different responses of Ross River virus to climate variability between coastline and inland cities in Queens- land, Australia, 739

Polyneuropathy, Criteria for the diagnosis of peripheral neuropathies, 425

Polyvinyl chloride, An increased standardised mortality ratio for liver cancer among polyvinyl chloride workers in Taiwan, 405

Pooled analysis, Exposure-response analysis and and risk assessment for silica and silicosis mortality in a pooled analysis of six cohorts, 723

Post-exposure prophylaxis, Out of hours management of occupational exposures to blood and body fluids in healthcare staff, 415

Posture, High physical work load and low job satisfaction increase the risk of sickness absence due to low back pain: results of a prospective cohort study, 323

Practice, Knowledge, attitude, practice, and toxicity symptoms associated with pesticide use among farm workers in the Gaza Strip, 387

Pregnancy outcome, Effects of maternal exposure to cadmium on pregnancy outcome and breast milk, 394

Pregnancy, Influence of years engaged in agriculture and number of pregnancies and deliveries on mortality of inhabitants of the Jinzu River basin area, Japan, 847

Preterm birth, Reproductive outcome among female hairdressers, 394

Prevalence, The prevalence of occupational dermatitis in the UK printing industry, 487

Prevention strategies, Translating evidence about occupational conditions into strategies for prevention, 205
sunlight, Sunlight and mortality from breast, ovarian, colon, prostate, and non-melanoma skin cancer: a composite death certificate based case-control study, 257

survey, Work related asthma, 503

Sweden, Stomach cancer and occupation in Sweden: 1971–89, 329

systemic sclerosis, Systemic sclerosis and occupational risk factors: a case–control study, 545

talc dust, A cohort mortality and nested case-control study of French and Austrian talc workers, 98

tests, Definition and assessment of specific occupational demands concerning lifting, pushing, and pulling based on a systematic literature search, 800

time series, Different responses of Ross River virus to climate variability between coastline and inland cities in Queensland, Australia, 739

Effects of air pollution on general practitioner consultations for upper respiratory diseases in London, 294

tinnitus, Occupational exposure to noise and the attributable burden of hearing difficulties in Great Britain, 634

toluene, Psychomotor performance and subjective symptoms at low level toluene exposure, 263

toxicity symptoms, Knowledge, attitude, practice, and toxicity symptoms associated with pesticide use among farm workers in the Gaza Strip, 387

traffic noise, Ambient neighbourhood noise and children’s mental health, 380

translating evidence, Translating evidence about occupational conditions into strategies for prevention, 205

trauma, Mind and matter: OEM and the World Trade Center, 145

travel, International business travel: impact on families and travellers, 309

The prevalence of occupational dermatitis in the UK flexible polyurethane foam industry: updated findings, 1958–98, 1751

toluene diisocyanate, Mortality and cancer morbidity of production workers in the UK flexible polyurethane foam industry: updated together, 1958–98, 1751

toluene, Psychomotor performance and subjective symptoms at low level toluene exposure, 263

translating evidence, Translating evidence about occupational conditions into strategies for prevention, 205

traffic noise, Ambient neighbourhood noise and children’s mental health, 380

vaccinia virus, Critical evaluation of smallpox vaccination for laboratory workers, 673

vanadium, Fever and neutrophilic alveolitis caused by a vanadium based catalyst, 785

vibration, Raynaud’s phenomenon, vibration induced white finger, and difficulties in hearing, 640

vinyl chloride, Translating evidence about occupational conditions into strategies for prevention, 205

volcanic ash, Assessment of the exposure of islanders to ash from the Soufriere Hills volcano, Montserrat, British West Indies, 523

waste collecting, Upper airway inflammation and respiratory symptoms in domestic waste collectors, 106

wet work, Prevention of work related skin problems: an intervention study in wet work employees, 556

wheezing, Work related asthma, 503

white blood cell count, Decreased white blood cell counts in semiconductor manufacturing workers in Taiwan, 44

winter sports, Exposure to carbon monoxide and nitrogen dioxide in enclosed ice arenas, 224

women, Risk factors for occupational knee related disability among enlisted women in the US Army, 601

wood dust, Nasal patency is related to dust exposure in woodworkers, 23

Respiratory symptoms, lung function, and nasal cellularity in Indonesian wood workers: a dose-response analysis, 338

work related asthma, Prevalence and risk factors of work related asthma by industry among United States workers: data from the third national health and nutrition examination survey (1988–94), 505

work related factors, Work environment and neck and shoulder pain: the influence of exposure time. Results from a population based case-control study, 182

workers, A review of functional status measures for workers with upper extremity disorders, 664

working hour, Overtime work, insufficient sleep, and risk of non-fatal acute myocardial infarction in Japanese men, 447

work, Occupational risk of Lyme disease: an epidemiological review, 75

The changing psychological contract at work, 355

Work organisation and unintentional sleep: results from the WOLF study, 595
