

Occupational and Environmental Medicine

Contents

Editorial

- 361 Basic protections are still lacking *D Loomis*

Commentaries

- 362 Documenting neurotoxicity from occupational manganese exposure *H Checkoway*
- 364 Coal workers' pneumoconiosis in small underground coal mines in the United States *A Seaton*

Original articles

Workplace

- 365 Could mining be protective against prostate cancer? A study and literature review *J Girschik, D Glass, G L Ambrosini, L Fritschi*
- 375 Occupational determinants of serum cholinesterase inhibition among organophosphate-exposed agricultural pesticide handlers in Washington State *J N Hofmann, M C Keifer, A J De Roos, R A Fenske, C E Furlong, G van Belle, H Checkoway*
- 387 Employment status and the risk of pregnancy complications: the Generation R Study *P W Jansen, H Tiemeier, F C Verhulst, A Burdorf, V W V Jaddoe, A Hofman, H A Moll, B O Verburg, E A P Steegers, J P Mackenbach, H Raat*
- 395 Airway inflammation in cement production workers *A K M Fell, L I B Sikkeland, M V Svendsen, J Kongerud*

June 2010 Volume 67 Issue 6

- 401 Solvent exposure and cognitive ability at age 67: a follow-up study of the 1947 Scottish Mental Survey *F D Dick, V J Bourne, S E Semple, H C Fox, B G Miller, I J Deary, L J Whalley*

Environment

- 408 Air temperature and inflammatory and coagulation responses in men with coronary or pulmonary disease during the winter season *R Hampel, S Breitner, R Rückerl, M W Frampton, W Koenig, R P Phipps, H E Wichmann, A Peters, A Schneider*
- 417 Possible effect of environmental exposure to asbestos on geographical variation in mesothelioma rates *S Goldberg, G Rey, D Luce, A Gilg Soit Ilg, P Rolland, P Brochard, E Imbernon, M Goldberg*

Methodology

- 422 An approach for estimating the health effects of changes over time in air pollution: an illustration using cardio-respiratory hospital admissions in London *C Tonne, S Beevers, F J Kelly, L Jarup, P Wilkinson, B Armstrong*

Short report

- 428 Coal workers' pneumoconiosis and progressive massive fibrosis are increasingly more prevalent among workers in small underground coal mines in the United States *A S Laney, M D Attfield*

PostScript

- 432 Letter

Stay a step ahead with Online First

We publish all our original articles online before they appear in a print issue.

This means that the latest clinical research papers go straight from acceptance to your browser, keeping you at the cutting edge of medicine. We update the site weekly so that it remains as topical as possible.

Follow the Online First link on the homepage and read the latest research.
