S Kashima, T Yorifuji, T Tsuda *et al.* Asian dust and daily all-cause or cause-specific mortality in western Japan. *Occup Environ Med* 2012;69:12 908–915. There are two corrections.

The following sentence should be added to the Acknowledgements: The authors thank Nobuo Sugimoto in the National Institute of Environmental Studies for providing us with LIDAR data and its technical information.

The first sentence in the 'Asian dust data' section should read: We obtained daily Asian dust concentrations by using polarisation LIDAR (Light Detection and Ranging) system measurements at the Matsue site (figure 1) during the study period from National Institute of Environmental Studies.
