Table S1. Sectors of economic activity used in the sixth EWCS*	
Economic Sector*	Corresponding NACE Rev.2 sectors
Agriculture	A. Agriculture, forestry and fishing
Industry	B. Mining and quarrying C. Manufacturing D. Electricity, gas, steam and air conditioning supply E. Water supply; sewerage, waste management and remediation activities
Construction	F. Construction
Commerce and hospitality	G. Wholesale and retail trade; repair of motor vehicles and motorcycles I. Accommodation and food service activities
Transport	H. Transportation and storage
Financial services	K. Financial and insurance activities L. Real estate activities
Public administration	O. Public administration and defence; compulsory social security
Education	P. Education
Health	Q. Human health and social work activities
Other services	J. Information and communication M. Professional, scientific and technical activities N. Administrative and support service activities R. Arts, entertainment and recreation S. Arts, entertainment and recreation T. Activities of households as employers; undifferentiated goods- and services-producing activities of households for own use U. Activities of extraterritorial organizations and bodies.

* Including working population in the entire public sector and medium and large companies in the private sector (≥50 employees).
† Total observed corresponds to the sum of occupational injuries captured by ISA only, AFA only and the overlap.
‡ Total estimated is the sum of the injuries observed plus those not captured by any of the sources.
§ Employer size available only for private companies
ISA= the Information System on occupational injuries. AFA= AFA Insurance.

*Includes OI among all public- and private-sector organizations in Sweden for the year 2013. Injuries missing information on ownership sector were early removed (3,8% for the total OI)					
† Total observed corresponds to the sum of occupational injuries captured by ISA only, AFA only and the overlap. A total of 83 074 and 52 814 non-fatal OI were identified in ISA and AFA, respectively. After the merge on +/- 7 days, a dataset with 99 614 distinct OI was created.					
‡ Public-sector is composed of municipal and government administration; municipal- and government-owned companies and organizations; and other public institutions.					
§ Number of employees is provided only for companies in the private sector.					
ISA= the Information System on occupational injuries. AFA= AFA Insurance.
