

Supplementary Material:**Is precarious employment an occupational hazard? Evidence from Ontario, Canada****Table A1:** Absolute quartile ranges, representing the proportion of workers exposed to a given employment condition within occupations assigned to a given exposure level

	Lower Value	Higher Value
Temporary Employment		
Q1 (Lowest Exposure)	0.0%	3.8%
Q2	3.9%	8.4%
Q3	8.5%	16.6%
Q4 (Highest Exposure)	16.7%	100%
Low Wages		
Q1 (Lowest Exposure)	0.0%	2.3%
Q2	2.4%	7.6%
Q3	7.7%	22.9%
Q4 (Highest Exposure)	23.4%	100%
Irregular Employment		
Q1 (Lowest Exposure)	0.0%	12.9%
Q2	13.0%	21.9%
Q3	22.0%	37.8%
Q4 (Highest Exposure)	37.9%	100%
Involuntary Part-Time Employment		
Q1 (Lowest Exposure)	0.0%	0.0%
Q2	0.3%	0.8%
Q3	0.9%	3.9%
Q4 (Highest Exposure)	4.0%	36.4%

Notes: Q = Quartile
